Re: Application of Wisconsin Public Service Corporation for a Certificate of Authority to Acquire a 99 MW Wind Generation Facility in Jamestown and Oakdale Townships, in Howard County, Iowa — 6690-CE-194

Dear Mr. Kyto:

The Commission Order for docket 6690-CE-194 mailed May 23, 2008, contained an order point that was clarified in Sandra Paske's May 28, 2008, letter to David Kyto. It was subsequently discovered that a further clarification to the order point is needed. The order point as clarified in the May 28 letter reads:

> 7. WPSC may not earn a return from ratepayers on any expenditures associated with the construction of the interconnection to the grid that are related to assets that will be transferred to the transmission owner.

The company will not be reimbursed for all of its expenditures related to the construction of the interconnection to the grid. Therefore, to clarify the intent of the Commission with respect to this issue, Order Point 7 in this docket will be replaced with the following language:

> 7. WPSC may not earn a return from ratepayers on any expenditures associated with the construction of the interconnection to the grid that are related to assets that will be owned by the transmission owner and that will be reimbursed by the transmission owner.

The Commission may correct an error in an order without a hearing within 30 days of its issuance, under Wis. Stat. § 196.39(4), if the correction does not alter the intended effect of the decision.

Sincerely,

Sandra J. Paske
Secretary to the Commission
