2000 Analytical Review DWCCA-4420-PJL

Dear Ms. Taylor:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

In our letter of September 1, 2000, regarding our review of the utility's 1999 report we requested that the utility submit its plan to comply with Wisconsin Administrative Code § 185.76 regarding testing of the utility's large water meters. In your email response we received you stated that arrangements had been made to test all large meters in the fall of 2000. However, there are no meters larger than .625" reported as tested in column (g) of page W-17. Please explain.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege
