FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

For values that represent an increase or a decrease when compared to the previous year of greater than 30%, but not less $2,000, please explain.

Account 640:
The increase is mainly due to a significant number of water main breaks during 2006 and costs to install the Madison Water Utility's meters which are not owned by Shorewood Hills.

Meters (Page W-19)

Explain all reported adjustments.

Adjustments were made in 2006 to reconcile meters to the correct size categories.

If Tested During Year column total is zero, please explain.

Shorewood Hills has a significant number of old meters to change. They maintain a list of meters by chronological order from oldest to newest. On an annual basis they work down the list, beginning with the oldest, and install a new meter in that location.

Ss. PSC 185.83(2) states "Station meters shall be maintained to ensure reasonable accuracy and shall have the accuracy checked at least once every 2 years." Are all station meters being tested every two years? Answer yes or no. If no, please explain.

All water for Shorewood Hills water utility is purchased from the City of Madison Water Utility
