Legend
1 inch = 2,640 feet

- Segment Node Points
- Subsegment Node Points
- Possible Transmission Line Routes
- Authorized CapX Route 05-CE-136
- Natural Gas Pipelines

Existing Infrastructure

- Existing Electric Substations
- Existing Electric Transmission Lines
- Existing Rail Corridors
- Public Airports
- Private Airports
- Private Heliports
- Seaplane Bases
- USFWS Properties
- Mississippi Valley Conservancy Properties
- DNR Managed Lands
- State Forests
- County Forests
- Native American Lands

Wetlands and Waterways

- Emergent/Wet Meadow
- Scrub/Shrub Wetlands
- Forested Wetlands
- Open Water
- Aquatic Beds
- Flats/Unvegetated Wet Soil

Notes:
- Aerial photos data source: NAIP 2013
- Wetlands shown are based on the Wisconsin Wetland Inventory (WWI). Wetland impacts described in Volume 1 are calculated based on field delineations and other sources.
- Rights-of-way widths for existing electric transmission lines, natural gas, pipelines, and rail corridors are not to scale.
- Boundaries for USFWS managed lands are approximate.
