Re: Application for the Approval of an Interconnection Agreement negotiated between Wisconsin Bell, Inc., d/b/a AT&T Wisconsin and TDS Metrocom, LLC

Dear Ms. Paske:

Wisconsin Bell, Inc., d/b/a AT&T Wisconsin and TDS Metrocom, LLC hereby request approval, pursuant to 47 U.S.C. 252, of this Interconnection Agreement negotiated between Wisconsin Bell, Inc., d/b/a AT&T Wisconsin and TDS Metrocom, LLC

I have been authorized by TDS Metrocom, LLC to submit for Commission approval, pursuant to 47 U.S.C. s 252(e), the enclosed agreement.

TDS Metrocom, LLC
Katherine Barnekow
Director Carrier Relations

Sincerely,

/S/ Sally Briar

Sally Briar

Enclosure

**AMENDMENT
TO INTERCONNECTION AGREEMENT
By and Between
WISCONSIN BELL, INC. D/B/A AT&T WISCONSIN
AND
TDS METROCOM, LLC**

The Interconnection Agreement, dated March 1, 2002 ("the Agreement") by and between Wisconsin Bell, Inc. d/b/a AT&T Wisconsin ("AT&T Wisconsin") and TDS Metrocom, LLC. ("TDS Metrocom" or "CLEC") is hereby amended as follows:

1. Add the following sections 16.6.9, 16.6.10, 16.6.11 and 16.6.12 to the UNE Appendix:

16.6.9 Subject to the conditions and qualifications set forth in this Section 16.6.9 and Sections 16.6.10, 16.6.11 and 16.6.12, CLEC, at its discretion, may elect to be charged a flat rate monthly charge ("Trouble Charge") in lieu of the charges provided for in Sections 16.6.2 and 16.6.3. To qualify to make this election ("Trouble Charge Election"), CLEC must (i) maintain and pay for a minimum of 75,000 UNE loops and UNE subloops obtained from AT&T Wisconsin, AT&T Illinois and/or AT&T Michigan during each month, with the percentage of such loops being high capacity (DS1 and above) UNE loops not to exceed 40 %; and (ii) first certify in writing each of the following: (A) that CLEC has already established and implemented processes to ensure that, before issuing such trouble report, CLEC will make a determination that the trouble is not in CLEC's own equipment and/or facilities or that of its End User; (B) that such process is required to be followed in every case prior to the issuance of a trouble report to AT&T Wisconsin; (C) that such process shall consist, at a minimum, of the following steps:

(1) For POTS lines and DSL capable POTS lines, CLEC will first perform a remote fault isolation test, conducted in accordance with Telecordia and Bell Core standards, from the CLEC/AT&T point of collocation. In all cases other than those in which the remote fault isolation test either (a) confirms a reported down aerial wire or cut drop wire; or (b) indicates a line fault less than 1,000 feet from the origination of the circuit, CLEC shall dispatch a field service technician ("FST") to CLEC's customer's premises to perform on-site tests of the end user's facilities at that end user's network interface device ("NID") to determine if a fault exists. CLEC will not open a trouble ticket with AT&T unless the remote isolation fault test indicates a line fault in AT&T's network and the on-site FST testing confirms that there is no trouble in the CLEC/end user's facilities and/or equipment.

(2) For high capacity lines, a CLEC central office technician will perform testing from the DSX panel in the central office for network interface unit ("NIU") loopback and bit error rate tests for the following test patterns: All 1s, all 0s, QRSS, 3N24. A trouble ticket will be opened with AT&T only if the NIU does not loopback or the error rate tests report errors.

and (D) that CLEC will provide available test results to AT&T when issuing a trouble report to AT&T. Such certification must be made as part of the initial election, and then within 30 days prior to every anniversary of that election. Failure to (i) maintain the minimum level of UNE loops and subloops in any month; (ii) comply with the maximum percentage of high capacity UNE loops in any month; and/or (iii) provide the annual certification shall permit AT&T Wisconsin to cease charging the Trouble Charge and to begin charging pursuant to Sections 16.6.2 and 16.6.3.

- 16.6.10 The Trouble Charge is applicable to every UNE loop and sub-loop purchased by CLEC, including DS1 and DS3 as well as POTS UNE loops, DSL UNE loops and UNE sub-loops, beginning on the later of June 1, 2008 or, if the certification is not provided at the same time that CLEC agrees to this Section by executing the Agreement (or if not part of the Agreement as originally executed, the amendment adding this Section), the beginning of the first billing period following the CLEC's provision to AT&T Wisconsin of the certification required herein. CLEC understands and acknowledges that the Trouble Charge (if ever applicable) shall not be separately billed, but rather shall be included as an additive to the UNE loop/sub-loop price and billed in a single charge for the pertinent loop/sub-loop. The Parties also understand and acknowledge that if CLEC qualifies to make the Trouble Charge election and makes it, the charges provided for in Sections 16.6.2 and 16.6.3 will not be applicable to any UNE facilities (including high capacity transport as well as loops), except as is otherwise provided herein. UNE loop and sub-loop monthly recurring prices reflecting the inclusion of the Trouble Charge are contained in the attached Pricing Schedule. If CLEC qualifies to make the Trouble Charge election and makes it, the parties agree that the Trouble Charge shall be reflected in any UNE loop and sub-loop pricing between them through and including December 4, 2010. Subject to the provisions of sections 16.6.11 and 16.6.12, the Trouble Charge specific to TDS Metrocom is \$0.11, a number that was calculated based on a TDS Metrocom-specific historical study, covering the 12 month period ending December 31, 2007 (the "Study Period"), taking into account factors including the number and make-up of UNE loops purchased by TDS Metrocom from AT&T Wisconsin, AT&T Illinois and AT&T Michigan (collectively, "AT&T"), the frequency and nature of the trouble reports issued by TDS Metrocom to AT&T, and the charges billed to TDS Metrocom pursuant to Sections 16.6.2 and 16.6.3. With the inclusion of this Section, TDS Metrocom has elected for Sections 16.6.9, 16.6.10, 16.6.11 and 16.6.12 to apply to it, and AT&T acknowledges receipt of the required initial certification. In the event a CLEC other than TDS Metrocom requests to adopt this Agreement ("Adopting CLEC"), qualifies to make the Trouble Charge Election and makes it, a Trouble Charge (and resulting UNE loop/subloop monthly recurring charges), specific to that Adopting CLEC, shall be determined based on an historical study specific to that Adopting CLEC taking into account factors including the number and make-up of UNE loops purchased by Adopting CLEC from AT&T, the frequency and nature of the trouble reports issued by that Adopting CLEC to AT&T, and the charges billed to the Adopting CLEC under Sections 16.6.2 and 16.6.3 or comparable contract provisions. For purposes of such study, the Study Period for an Adopting CLEC shall be the 12-calendar-month period the last calendar month of which is the month which is six (6) months prior to CLEC's election, or such other period of time as is mutually agreed-upon by the CLEC and AT&T. By way of example, if AT&T receives CLEC's election in June, the 12-calendar-month period would end in December of the preceding year.
- 16.6.11 Effective May 1, 2009, the Trouble Charge specific to TDS Metrocom will be increased from \$0.11 to \$0.13. Such increased Trouble Charge (and resulting UNE loop/subloop recurring charges) shall become effective on May 1, 2009, automatically and without the need for a written Amendment to this Agreement. Unless a different Trouble Charge is subsequently established in accordance with section 16.6.12, the Trouble Charge of \$0.13 will remain in effective until the termination of the Agreement.
- 16.6.12 Notwithstanding anything to the contrary in this Agreement, if CLEC is being charged the Trouble Charge (whether at the originally applicable rate or at a subsequently recalculated rate pursuant to Section 16.6.11 or this Section 16.6.12), either Party may, within 60 days prior to each anniversary of the effective date of the Trouble Charge implemented pursuant to Sections 16.6.9 and 16.6.10 request that the Trouble Charge be recalculated only if, for any three consecutive calendar months beginning after the then-applicable Trouble Charge began to apply, the average number of monthly trouble reports that CLEC issues to AT&T, stated as a percentage of the monthly average number of billed UNE loops and UNE sub-loops in place during that same three month period, varies by more than 33% from the average number of trouble reports issued per month by CLEC during the

Study Period used in establishing the Trouble Charge stated as a percentage of the average number of UNE loops and UNE subloops in place during the Study Period. In the event that either Party makes such a request, the Parties will make a good faith attempt to reach a mutual agreement on a revised Trouble Charge to become effective as of the date that such agreement is reached. If, within two months after a request is made for a recalculation, the Parties are unable to reach an agreement on a recalculated Trouble Charge, the matter will be made subject to the Dispute Resolution provisions of the Agreement.

2. For as long CLEC is under the Trouble Charge Election and being charged the Trouble Charge, Section 16.6.8 of the UNE Appendix will not apply. In the event that CLEC does not elect to pay the Trouble Charge or if, at any time during the term of the Agreement, CLEC's Trouble Charge Election ceases to be effective and AT&T Wisconsin is permitted to, and does, charge per occurrence trouble isolation charges according to Sections 16.6.2 and 16.3.3, then, in such case, section 16.6.8 shall also apply. The per occurrence trouble isolation charges that shall apply in the event that sections 16.6.2 and 16.6.3 are applicable shall remain the same as they were at that time this Amendment became effective. Specifically, the charge applicable to UNE POTS loops and DSL loops shall be \$71.00 per occurrence and the charges applicable to high capacity loops and transport facilities (DS1 and above) shall be \$200 for the first half hour and \$85 for each additional half hour.
3. Replace the current language in Section 9.3.1 of the DSL Appendix with the following:

If CLEC opens a trouble ticket for the HFPL portion of the loop to AT&T Wisconsin and the problem is determined to be in CLEC's network, CLEC will pay AT&T Wisconsin the Time and Materials charges for trouble isolation at the rates set forth in the applicable effective tariffed rate for trouble isolation, maintenance, and repair (as specified in Section 8.5 above) upon closing the trouble ticket. In response to a trouble ticket initiated by CLEC where AT&T Wisconsin determines in error that the trouble is in CLEC's network, and CLEC subsequently finds the trouble resides in AT&T Wisconsin's network, CLEC will be credited for all AT&T Wisconsin trouble isolation charges on the original trouble ticket and, if deemed necessary, charges from subsequent trouble tickets warranted to the same case of trouble. If either Party disagrees with the applicable charge assessed, the determination of the appropriate charge will be subject to the dispute resolution provisions of this Agreement.
4. Delete the current Pricing Schedule for the Agreement and replace it with the attached Pricing Schedule. The changes to the current Pricing Schedule reflected in the attached Pricing Schedule are (i) reductions in the non-recurring charges applicable to UNE DS1 loops; and (ii) the addition of UNE loop and UNE sub-loop monthly recurring charges which include the Trouble Charge referred to in Section 16.6.9, 16.6.10 and 16.6.11 of the UNE Appendix, to apply in the event that CLEC elects to pay the Trouble Charge pursuant to the provisions of 16.6.9, 16.6.10, 16.6.11 and 16.6.12 of the UNE Appendix. The UNE loop and UNE sub-loop recurring rates charges referred in (ii), above, are subject to revision in accordance with the provisions of Sections 16.6.10, 16.6.11 and 16.12.
5. Notwithstanding any provision of the Agreement or this Amendment to the contrary, (i) the reductions in UNE DS1 Loop NRCs referred to in paragraph (4)(i), above, will become effective beginning with invoices issued on or after June 1, 2008 or the Effective Date of the Agreement between the Parties, whichever is later; and (ii), the UNE loop and UNE sub-loop monthly recurring charges referred to in paragraph (4)(ii), above, will become effective on June 1, 2008 or the Effective Date of the Agreement, whichever is later. Within 60 days of the Effective Date of this Amendment, the parties will perform any manual billing, credits or other true-up necessary to effectuate this provision.
6. Each Party agrees that, prior to December 4, 2010, CLEC will absolutely forebear from seeking, or bringing any proceeding (including any proceeding under Wis. Stats. section 196.197) for the purpose of challenging or requesting, changes in the UNE DS1 loop NRCs applicable to CLEC in Wisconsin, as set forth the this Amendment. The Parties further agree that, in the event the PSCW orders a change in the rates for UNE DS1 Loop NRCs in Wisconsin in any proceeding, including any proceeding initiated pursuant to Wis. Stats. Section

- 196.197, neither Party will take any action to make such change in rates applicable to CLEC prior to December 4, 2010.
7. Each Party agrees that, prior to December 4, 2010, it will absolutely forebear from seeking or bringing any proceeding (including under Wis. Stats. section 196.197) for the purpose of challenging or requesting changes in the TIC provisions implemented pursuant to this Amendment.
 8. This Amendment shall also be incorporated into and become a part of, by exhibit, attachment or otherwise, and shall supersede, amend, and modify the applicable provisions of, any future interconnection agreement(s) between the Parties for the period through and including December 4, 2010, whether negotiated, arbitrated, or arrived at through the exercise of Section 252(i) MFN rights or otherwise.
 - 8.1 Any inconsistencies between the provisions of this Amendment and other provisions of the current ICA or future interconnection agreement(s) for the period through and including December 4, 2010, will be governed by the provisions of this Amendment, unless this Amendment is specifically referenced and expressly superseded by a future amendment between the Parties that references this Amendment, and then only to the extent set forth in any such future amendment.
 - 8.2 If the underlying ICA or any future interconnection agreement(s) expire sooner than December 4, 2010, the Parties agree that the Amendment shall not extend or otherwise alter the term and termination rights of the underlying ICA or any future interconnection agreement(s), but instead, the Amendment will be deemed incorporated into any successor interconnection agreement(s) between the Parties through December 4, 2010, without the need for re-filing it, referencing it in the successor interconnection agreement(s), or otherwise further preserving it.
 - 8.3 Up to and through December 4, 2010, and with respect to AT&T Wisconsin, this Amendment applies to any Affiliate of CLEC, and to any purchaser or other transferee via any lease, transfer, sale or other conveyance by CLEC of all or a substantial portion of its assets, in which case CLEC shall obtain the purchaser's agreement to be bound by the terms and conditions set forth herein, but only as to that portion of purchaser's operations resulting from the purchase of CLEC.
 9. To the extent the underlying Agreement does not contain terms and conditions for UNE(s) listed in the UNE price schedule attached to this Amendment, this Amendment does not provide CLEC with the ability to obtain and/or order such UNE(s). Rather, CLEC must negotiate a separate amendment incorporating the appropriate terms and conditions into the underlying Agreement before ordering and/or obtaining any such UNE(s).
 10. All other terms and conditions of the Agreement remain unchanged.
 11. In entering into this Amendment, neither Party waives, and each Party expressly reserves, any rights, remedies or arguments it may have at law or under the intervening law or regulatory change provisions in the underlying Agreement (including intervening law rights asserted by either Party via written notice predating this Amendment) with respect to any orders, decisions, legislation or proceedings and any remands thereof, which the Parties have not yet fully incorporated into this Agreement or which may be the subject of further review
 12. This Amendment shall not modify or extend the Effective Date or Term of the underlying Agreement.
 13. This Amendment shall be filed with and subject to approval by the Public Service Commission of Wisconsin and shall become effective ten (10) days following approval by such Commission.

24th IN WITNESS WHEREOF, this Amendment to the Agreement was exchanged in duplicate on this day of January 2008, by AT&T Wisconsin, signing by and through its duly authorized representative, and CLEC, signing by and through its duly authorized representative.
