^[1] The monthly flat rate shown here excludes usage charges, which vary based on the number of local calls made. Although AT&T has had the ability to change its usage rates by any amount since December 2007, it has not yet done so.

^[2] In addition to the rate increases shown, AT&T also raised rates by \$.08 effective May 1, 2006 and \$.05 effective October 15, 2007, lowered rates by \$.16 effective February 19, 2009, raised rates by \$1.08 effective February 1, 2010, and lowered rates by \$1.04 effective January 31, 2011, related to Wisconsin USF programs, as allowed by Wis. Stats. § 196.218.

^[3] Up until February 19, 2009, the surcharge related to Wisconsin USF programs was included in the BLES rate. Since that date, the surcharge has been tariffed separately in PSCW 20 Part 4 Section 4 Sheet 7. For comparability purposes, the \$.61 surcharge has been added to the \$18.00 BLES rate.
