PSC to Hold Public Hearings for Glacier Hills Wind Park

MADISON -- The Public Service Commission of Wisconsin (PSC) will hold public hearings on Wisconsin Electric Power Company's (WEPCO) application to construct The Glacier Hills Wind Park, a wind electric generation facility in the towns of Randolph and Scott in Columbia County. The public hearings will be held Wednesday, November 4, 2009 at 3 p.m. and 7 p.m. at Randolph Town Hall, 109 South Madison Street in Friesland with Administrative Law Judge Michael Newmark presiding.

WEPCO, doing business as We Energies, filed an application with the PSC on June 18, 2008, for approval to construct the electric generation facility. The project consists of 90 wind turbines with a total capacity of up to 207 megawatts (MW). The turbines would be located in a project area of approximately 17,300 acres and would be connected together by underground electrical cables. The wind farm would be connected to an existing 138 kilovolt (kV) electric transmission line that traverses the project area via a new interconnection substation.

Public comments on WEPCO's application will be included in the record the Commission will review to make a decision. Citizens are encouraged to attend the public hearings. If you cannot attend the public hearings, but would like to provide comments, you can do so on the PSC's website through October 28. Click on the Public Comments button on the PSC's homepage and click on the case title.

Documents associated with WEPCO's application can be viewed on our Electronic Regulatory Filing System at <http://psc.wi.gov/>. Enter case number 6630-CE-302 in the boxes provided on the PSC homepage, or click on the Electronic Regulatory Filing System button.
