## **SEERA NAMES NEW PROGRAM ADMINISTRATOR FOR FOCUS ON ENERGY**

MADISON – The Statewide Energy Efficiency and Renewable Energy Administration (SEERA) today announced that it has contracted with Shaw Environmental & Infrastructure, Inc. (Shaw) to serve as Program Administrator for Focus on Energy. Shaw was selected following a competitive bid process administered by SEERA in accordance with the requirements of 2005 Wisconsin Act 141.

Focus on Energy works with eligible Wisconsin residents and businesses to install cost-effective energy efficiency and renewable energy projects that help manage rising energy costs, promote in-state economic development, protect the environment and control the state's growing demand for electricity and natural gas. It is widely recognized as one of the leading energy efficiency and renewable energy programs in the United States.

Shaw is a subsidiary of The Shaw Group, a Fortune 500 company and an international leader in energy management. For more than a decade, Shaw has helped government and commercial entities develop, implement and administer leading-edge energy efficiency programs. “We welcome Shaw and look forward to their leadership,” said Jean Derfus, Vice-Chair of SEERA. “Shaw will help the state’s residents and businesses become more energy efficient and productive.”

Customers will see no interruption in Focus on Energy programs and services. Focus on Energy contact points for customers, including the 800 number (1.800.762.7077) and the website ([www.focusonenergy.com](http://www.focusonenergy.com)), remain the same.

“Focus on Energy offers real economic and energy-saving benefits to Wisconsin’s utility customers and the businesses that serve them,” said Phil Montgomery, Chairman of the Public Service Commission of Wisconsin, which oversees the program. “Working with Shaw and SEERA, our goal is to make sure Wisconsin businesses and residents continue to make use of this cost-saving tool.”

### **About Focus on Energy**

*Focus on Energy works with eligible Wisconsin residents and businesses to install cost-effective energy efficiency and renewable energy projects. Focus information, resources, and financial incentives help to implement projects that otherwise would not be completed, or to complete projects sooner than scheduled. Its efforts help Wisconsin residents and businesses manage rising energy costs, promote in-state economic development, protect our environment, and control the state's growing demand for electricity and natural gas. For more information call 800.762.7077 or visit [focusonenergy.com](http://www.focusonenergy.com).*
