## Draft Environmental Impact Statement on Proposed Line Available to Public

MADISON - On November 8, 2011, the Public Service Commission of Wisconsin (Commission) and the Wisconsin Department of Natural Resources jointly issued a draft environmental impact statement (EIS) for a transmission line being proposed by Dairyland Power Cooperative (DPC), Northern States Power Company (Xcel Energy), and Wisconsin Public Power, Inc. (WPPi). This project is known as the Alma-La Crosse 345 kV Transmission Line (CapX2020 Transmission Project), PSC docket 5-CE-136.

Copies of the draft EIS have been mailed to members of the public who previously requested them and to government agencies and municipalities within the project area. Copies were also provided to project-area public libraries. A digital (pdf format) copy of the draft EIS may be downloaded directly from the PSC's website at <http://psc.wi.gov> or interested parties may request a digital copy on DVD. The PSC also has a limited number of hard copies available for those lacking access to a computer. Requests for the draft EIS may be sent by mail or by calling or e-mailing: William Fannucchi, Docket Coordinator, Public Service Commission, P.O. Box 7854, Madison, WI 53707-7854, (608) 267-3594, [william.fannucchi@wisconsin.gov](mailto:william.fannucchi@wisconsin.gov).

The Commission is now accepting comments on the draft EIS. The comment period ends on Friday December 23, 2011. Comments on the draft EIS should focus on the quality and accuracy of the document. Send comments on the draft EIS to: Kenneth Rineer, EIS Coordinator, Public Service Commission, P.O. Box 7854, Madison, WI 53707-7854; (608) 267-1201; [kenneth.rineer@wisconsin.gov](mailto:kenneth.rineer@wisconsin.gov).
