ANNUAL REPORT

OF

Name: DICKEYVILLE TELEPHONE CORPORATION

Principal Office: 140 N MONROE ST
P.O. BOX 509
LANCASTER, WI 53813-0509

For the Year Ended: DECEMBER 31, 1997

**TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN**

P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records in conformity with the Uniform System of Accounts prescribed by the Public Service Commission of Wisconsin in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
2. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used, however please show the exact name of the respondent in full on the "Identification and Ownership" page.
3. Wherever information is requested in a "note", please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
4. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. Do not use parentheses for numeric values. The program will convert the minus sign to parentheses when a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
5. Please report all dollar amounts to the nearest whole dollar.
6. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
7. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, that previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
8. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the notes to the income statement or the balance sheet, which describes the nature and extent of work performed.
9. Please print a hard copy of the annual report on 20 pound or heavier paper, sign it and compare with the electronic copy before officially filing it with the Public Service Commission of Wisconsin.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
Trunk	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
Wide Area Telephone Service (WATS)	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
Wire Center	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

See Footnote A - "Summary of Significant Accounting Policies".

A

-
2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None.

-
3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

See Footnote B - "Dividend Restriction".

STATEMENT OF CASH FLOWS

Item (a)	Amount (b)	
CASH FLOWS FROM OPERATING ACTIVITIES		
Net Income	199,372	1
Adjustments to Reconcile Net Income to Net Cash Provided by Operating Activities:		
Depreciation and amortization	136,561	2
Interest during construction	0	3
Changes in assets and liabilities:		
Current assets (net)	54,494	4
Other noncurrent assets	(25)	5
Other current liabilities	(8,515)	6
Other liabilities and deferred credits	(16,978)	7
Other (specify):		
TOTAL ADJUSTMENTS	165,537	
NET CASH PROVIDED BY OPERATING ACTIVITIES (NET INCOME & ADJUST.)	364,909	
CASH FLOWS FROM INVESTING ACTIVITIES		
Capital Expenditures:		
Changes in plant (net)	(15,979)	8
Investments in affiliated companies	0	9
Nonoperating Investments	400	10
Other (specify):		
NET CASH USING IN INVESTING ACTIVITIES	(15,579)	
CASH FLOWS FROM FINANCING ACTIVITIES		
Change in capital lease obligations (net)	0	11
Change in long-term debt (net)	(36,010)	12
Net changes in stockholder equity other than retained earnings	0	13
Change in short term borrowing (net)	0	14
Dividends paid	(50,000)	15
Miscellaneous debits/credits to retained earnings	0	16
Other (specify):		
Net Cash Provided by Financing Activities	(86,010)	
NET INCREASE IN CASH AND CASH EQUIVALENTS	263,320	
Cash and cash equivalents at beginning of year (Accts. 1130-1160 for Class A; 1120 for Class B)		
Cash and cash equivalents at end of year (Accts. 1130-1160 for Class A; 1120 for Class B)		

IMPORTANT CHANGES DURING THE YEAR

1. Give the name and address of all companies which during the year came under the direct control of the respondent otherwise than through title to securities, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

None

2. Give the name and address of all companies which during the year came under the indirect control of the respondent through non-reporting intermediaries, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, the name and address of the intermediary through which the indirect control exists, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

None

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, and other conditions.

None

4. List extension of system (other than additions supplementing existing facilities of the respondent) whether by purchase, construction, donation, or otherwise, such as a substantially complete telephone system, exchange or toll line. Give the location, new territory covered, and dates of beginning operation, and in case of purchase give also the name and address of the company from which purchased, date of acquisition, the consideration given, and reference to Commission authorization.

None

5. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.

None

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue.

None

7. Changes in articles of incorporation or amendments to charter.

None

IMPORTANT CHANGES DURING THE YEAR

8. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

Dickeyville Telephone Corporation is a subsidiary of the Holding Company - Pioneer Communications, Inc. Pioneer Communications, Inc. merged with Mid-Plains, Inc. effective June 1, 1997. Pioneer Communications is now a subsidiary of the new Holding Company - Chorus Communications Group, Ltd.

Dickeyville Telephone Corporation transferred its Public Telephone Terminal Equipment to Pioneer Communications, Inc. at net book value. At the time of transfer total asset value was \$5,751 and total accumulated depreciation was \$5,751.

On January 1, 1997 Dickeyville Telephone Corporation sold its long distance division (formerly know as DWR Long Distance) to Pioneer Communications, Inc. Also at that time the General Computer Equipment related to that division was transferred to Pioneer Communications, Inc. at net book value. At the time of transfer total asset value was \$27,000 and total accumulated depreciation was \$16,357.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate (a)	Abbreviations (b)	
CHORUS COMMUNICATIONS GROUP, LTD	CCG	1
FARMERS TELEPHONE COMPANY	FTC	2
MID-PLAINS, INC.	MPI	3
PIONEER COMMUNICATIONS, INC.	PCI	4

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

Particulars (a)	(b)	(c)	(d)	(e)

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 4010, Accounts Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account. Affiliated amounts recorded in accounts 1200, Notes Receivable, 1408, Sinking Funds, and 4020, Notes Payable, should not be reported in this schedule, but rather in the respective schedules contained elsewhere in this report.

Name of Affiliate (a)	Account Number (b)	Balance EOY (c)

TELECOMMUNICATIONS PLANT IN SERVICE CLASS A & B (SUB-CLASS ACCOUNTS)

Report telecommunications plant data for each subaccount where primary plant accounts have subclassifications. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone plant at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

NOTES PAYABLE (ACCT. 4020)

For affiliate, list note by affiliate. For a particular affiliate, the identical affiliate name, as shown in the Affiliate Abbreviations schedule, should be reported in this schedule. For other, list by note by entity.

Name (a)	Issue Date (b)	Maturity (c)	Interest Rate (d)	Balance EOY (e)
---------------------	-------------------------------	-------------------------	----------------------------------	--------------------------------

LONG-TERM DEBT

Report data requested and show total for each long-term debt account at end of year. Information concerning the following debt issues may be reported on individual lines in aggregate: REA/RTB 2%, REA/RTB 5%, & REA/RTB 7%. In addition, REA/RTB and FFB debt, respectively, within a range of 200 basis points may also be reported in aggregate on individual lines. If reported in aggregate, a range of dates may be reported in columns (b) and (c) as well as a range of interest rates in column (d) and a composite interest rate in column (e). If aggregation is not utilized, column (e) should contain the same interest rate as reported in column (d). For account 4050 report only the amount of debt anticipated to be repaid in one year or less.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

General Footnote

Schedule Footnotes

Long-Term Debt Footnote. Page 33

Prior Annual Reports only reported the year in which each note was issued and due to mature. The program required specific dates for the 1997 Annual Report so January 1 was used for all dates.

Expense Matrix - Class A & B Footnote. Page 41

Expense Matrix page 41: The amount of salaries and wages reported on page 41 does not equal the amount reported on page 46 (Employee Data) for several reasons. The amounts reported on the expense matrix pages for salaries and wages include the following: (1) amounts charged to/from Farmers Telephone Company and Pioneer Communications, Inc. through affiliated billings, (2) compensated absences, (3) Dickeyville Telephone Corporations actual payroll, and (4) payroll accruals. The amount reported on page 46 is Dickeyville Telephone Corporations actual payroll, which matches the W-2s.

Schedule Line Footnotes

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

A) Footnote A - Summary of Significant Accounting Policies

PIONEER COMMUNICATIONS, INC.

Dickeyville Telephone Corporation (Corporation) is a wholly-owned subsidiary of Pioneer Communications, Inc. (Pioneer). Pioneer is a wholly-owned subsidiary of Chorus Communications Group, Ltd. (Chorus). Affiliates of Pioneer provide services to other affiliates at cost plus a return on investment.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Corporation is a provider of telecommunications exchange and local access services in a service area located in southwestern Wisconsin.

The accounting policies of the Corporation conform to generally accepted accounting principles and reflect practices appropriate to the telephone industry. Management uses estimates and assumptions in preparing its financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, revenues and expenses, and the disclosure of contingent revenues and expenses. The accounting records of the Corporation are maintained in accordance with the Uniform System of Accounts for Class A and B Telephone Companies prescribed by the Federal Communications Commission (FCC) as modified by the Public Service Commission of Wisconsin (PSCW).

PROPERTY AND EQUIPMENT

Telephone plant is capitalized at original cost, including the capitalized cost of salaries and wages, materials, certain payroll taxes and employee benefits. Beginning in September 1995, regulators modified accounting principles for the allowance for funds used during construction (AFUDC) to conform with Statement of Financial Accounting Standards No. 34 "Capitalization of Interest Cost." The impact of this change was not material. No AFUDC was taken in 1997.

The Corporation provides for depreciation for financial reporting purposes on the straight-line method by the application of rates based on the estimated service lives of the various classes of depreciable property as approved by the Board of Directors.

Depreciation on depreciable property is included in plant nonspecific operations expense at \$136,561 and \$102,990 which resulted in composite rates of 8.2% and 6.2% for 1997 and 1996, respectively.

Renewals and betterments of units of property are charged to telephone plant in service. When telephone plant is retired, its cost is removed from the asset account and charged against accumulated depreciation, together with removal costs less any salvage realized. No gains or losses are recognized in connection with routine retirements of depreciable property. Repairs and renewals of minor items of property are included in plant specific operations expense.

INCOME TAXES

For federal income tax purposes, the Corporation is included in a consolidated tax return along with other subsidiaries held by Chorus. For financial reporting purposes, income taxes are presented by apportioning the consolidated tax provision in the ratio of income taxes to be paid as if each were filing a separate return.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

Income taxes are accounted for using a liability method and provide for the tax effects of transactions reported in the financial statements including both taxes currently due and deferred. Deferred taxes are adjusted to reflect deferred tax consequences at current enacted tax rates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Corporations deferred tax assets and liabilities relate to property and equipment. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

Investment tax credits (ITC), which were deferred prior to 1986, are being amortized over the regulatory life of the plant which produced the ITC.

REVENUE RECOGNITION

The Corporation recognizes revenues when earned regardless of the period in which they are billed. The Corporation is required to provide service to subscribers within its defined service territory.

Local network service revenues are recognized over the period a subscriber is connected to the telephone network. Calls within an extended community calling area are recognized when made based on a rate per minute of usage as approved by the PSCW.

Network access and long distance service revenues are derived from charges for access to the Corporations local exchange network. The interstate portion of access revenues are based on an average schedule company settlement formula administered by the National Exchange Carrier Association (NECA) which is regulated by the FCC. The intrastate portion of access revenues are billed on individual company tariff access charge structure based on expense and plant investment of the Corporation as approved by the PSCW. The tariffs developed from these formulas are used to charge the connecting carrier and recognize revenues in the period the traffic is transported based on the minutes of traffic carried. Long distance revenues are recognized at the time a call is placed based on the minutes of traffic processed at tariffed and contracted rates.

On January 1, 1997, the Corporation transferred its long distance business to Pioneer by selling its customer list and making the appropriate regulatory filings.

Other revenues include contractually determined arrangements for the provision of billing and collecting services and are recognized in the period when the services are performed.

CASH EQUIVALENTS

All highly liquid investments with a maturity of three months or less at the time of purchase are considered cash equivalents.

INVESTMENTS

Investments include \$39,350 at December 31, 1997 and 1996, related to Rural Telephone Bank (RTB) Class B stock. Such RTB stock was purchased from the RTB as a condition of obtaining long-term financing. Holders of RTB Class B stock are entitled to patronage dividends in the form on additional Class B stock. However, such stock must be held until the

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

ADDITIONAL CLASS B STOCK. HOWEVER, SUCH STOCK MUST BE HELD UNTIL THE related RTB loan is repaid and may be redeemed only after all shares of Class A stock have been retired, at the discretion of the Board of Directors of RTB.

RELATED PARTY TRANSACTIONS

The Corporation presently leases a building from Pioneer under an operating lease that does not have a specified termination date. Rent expense included in plant specific operations expense was \$9,840 for both 1997 and 1996.

CONCENTRATIONS OF CREDIT RISK

The Corporation grants credit to local service customers, substantially all of whom are located in the franchised service area, and telecommunications intrastate and interstate long distance carriers.

The Corporation maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Corporation has not experienced any losses in such accounts. The Corporation believes it is not exposed to any significant credit risk on cash and cash equivalents.

TRANSFER OF ASSETS

On January 1, 1997, the Corporation transferred its toll resale operations to Pioneer. Related assets (General Purpose Computers) with a net book value of \$10,643 were transferred to Pioneer.

On April 15, 1997, the Corporation transferred its payphones to Pioneer. Related assets (Public Telephone Terminal Equipment) with a net book value of \$0 were transferred to Pioneer.

REGULATORY ACCOUNTING

The Corporation follows the accounting for regulated enterprises prescribed by Statement of Financial Accounting Standards No. 71, "Accounting for the Effects of Certain Types of Regulation" ("SFAS 71"). In general, companies depreciate plant and equipment over lives approved by regulators which may extend beyond the assets actual economic and technological lives. They also defer certain costs and obligations based upon approvals received from regulators to permit recovery in the future. Consequently, the recorded net book value of certain assets and liabilities, primarily telephone plant and equipment, may be greater than that which would otherwise be recorded by unregulated enterprises. On an ongoing basis, the Corporation reviews the continued applicability of SFAS 71 based on the current regulatory and competitive environment. Although recent developments suggest that the telecommunications industry will become increasingly competitive, the degree to which cost of service regulatory oversight of local-exchange carriers, including the Corporation, will be lifted and competition will be permitted to establish the cost of service to the consumer is uncertain. As a result, the Corporation continues to believe that accounting under SFAS 71 is appropriate. If the Corporation were to determine that the use of SFAS 71 was no longer appropriate, it would be required to write-off the deferred costs and obligations referred to above. It may also be necessary for the Corporation to reduce the carrying value of its plant and equipment to the extent that it exceeds fair market value. At this time, it is not possible to estimate the amount of the Corporation's plant and equipment, if any, that would be considered unrecoverable in such circumstances. The financial impact of such a determination, however, which would be

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

non-cash, could be material.

B) Footnote B - Dividend Restriction

Substantially all assets of the Corporation are pledged as security for the long-term debt under certain loan agreements with the Rural Utilities Service (RUS) and the Rural Telephone Bank (RTB). These mortgage notes are to be repaid in equal quarterly installments covering principal and interest beginning three years after date of issue and expiring by 2017.

The mortgage to the United States of America, underlying the RUS and RTB notes, contains certain restrictions on the declaration or payment of cash dividends, redemption of capital stock, or investment in affiliated companies. As of December 31, 1997, the maximum amount which could be distributed in accordance with these restrictions was \$108,000 except as might be specifically authorized in writing in advance by the RUS and RTB noteholders.

- C) The long distance division was transferred to Pioneer effective January 1, 1997. Therefore, Accounts Receivable-Long Distance Accounts and Accounts Receivable-Allowance-Long Distance Accounts were both zeroed out. The net effect was a \$2,129 write-off.
- D) Increase in depreciation expense due to increasing depreciation rate on Buried Cable-Metallic from 4% to 8% effective January 1, 1997.
- E) Decrease in expenses in accounts 6610 & 6620 due to transferring the long distance division to Pioneer effective January 1, 1997.
- F) Amount shown in column (g) is for the General Purpose Computers that were transferred to Pioneer when the long distance division was transferred to Pioneer. See also page 13 item 8 for further explanation.
- G) Amount shown in column (g) is for the Public Telephone Terminal Equipment that was transferred to Pioneer when payphones became deregulated. See also page 13 item 8 for further explanation.
- H) Amount shown in column (k) is for the General Purpose Computers that were transferred to Pioneer when the long distance division was transferred to Pioneer. See also page 13 item 8 for further explanation.
- I) Amount shown in column (k) is for the Public Telephone Terminal Equipment that was transferred to Pioneer when payphones became deregulated. See also page 13 item 8 for further explanation.
- J) Decrease in Long Distance Revenue due to transferring the long distance division to Pioneer.
- K) Decrease in Intrastate Billing & Collection Revenues due to decrease in Billing & Collection rates from Ameritech.
- L) The amount for line 1 - Regulated Expense should be \$4,311 and the amount for line 5 - All other accounts should be \$17,358. The program would not allow me to change line 1. See also Schedule footnote for expense matrix (page 41) for further explanation.
- M) Since account 1181 was only used for the long distance division in the past, the only information that is being brought forward from page 17 is related to that. The amount shown on this line is to true-up the total amount of uncollectibles. Collection of amounts previously written off = \$404. Uncollectibles written off during the year = \$1,643. Net uncollectibles = \$1,239.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- N)** Docket Nos. 05-AT-103 and 05-AT-105 relate to the affiliated transactions reported on page 15 for columns (b, c, d and e). The transactions that are reported are in accordance with the agreement filed in these dockets.
- O)** When entering data in Host Exchange ID/Name data field a Remote Host Central Office ID Error popped up stating: "No Central Office records found for current utility and exchange ID". This is because the Corporation is a remote off of its sister Companys (Farmers Telephone Company) host switch.

Host Central Office ID/Name: 1 Lancaster

- P)** Data for Telephone Calls for Operator Handled: State-intralata, State-interlata and Interstate have been combined into one on line number 5. This is the only way the switch reports the data.
- Q)** Data for Telephone Calls for Customer Dialed: State-interlata and Interstate have been combined into one on line 9. This is the only way the switch reports the data.
