

4004

ANNUAL REPORT

OF

Name: VERIZON NORTH -WISCONSIN OPERATIONS

Principal Office: 100 COMMUNICATIONS DR
P.O. BOX 49
SUN PRAIRIE, WI 53590-0049

For the Year Ended: DECEMBER 31, 2001

TELECOMMUNICATIONS UTILITY TO PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. (Example: The 2001 report is due April 1, 2002.) If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required.** Go to the Public Service Commission of Wisconsin's web page at <http://psc.wi.gov>, click on Telecommunications and click on Annual Report for Incumbent Local Exchange Carriers (LECs).
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Please report all dollar amounts to the nearest whole dollar.
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
12. The LEC annual report program incorporates provisional confidentiality capability for selected items, based on the Commission's confidentiality determination dated February 5, 2002.
13. It is not necessary to sign the signature page.
14. **Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files;
Filing the Completed Report:**

GENERAL RULES FOR REPORTING

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrcs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. Name Changes:

If a name change is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI.

These documents can be obtained by:

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at www.wdfi.org; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

While the electronic annual report filing may detail the name change (i.e., date of the change and the affected entities with their respective four-digit Commission utility identification numbers), a name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

16. Changes to the Annual Report Subsequent to Filing:

If making revisions to the report subsequent to filing with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
Trunk	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
Wide Area Telephone Service (WATS)	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
Wire Center	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

ABBREVIATIONS USED IN ANNUAL REPORTS

Acct	Account
Accum	Accumulated
Acq	Acquisition
Admin	Administrative
Alloc	Allocation
Amort	Amortization
CO	Central Office
Depr	Depreciation

Net Income	31,985,106	160,262,101	16

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

None

2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

None

IMPORTANT CHANGES DURING THE YEAR

1. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.

Date of Change	Description of Change	Effect on Revenue
January 1, 2001	WI - USAC FILING - INTER	0.1 Million
July 1, 2001	WI - ANNUAL FILING - INTER	-3.4 Million
July 1, 2001	WI - ANNUAL FILING - PICC	-1.3 Million
July 1, 2001	WI - SLC INCREASE - INTER	1.1 Million
July 1, 2001	WI - ANNUAL FILING - SPECIAL	-0.8 Million
July 1, 2001	WI - MIRROR ANNUAL FILING - INTRA	-0.8 Million
August 1, 2000	WI - ANNUAL FILING REVISION - INTER	-0.1 Million

2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

NONE.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate (a)	Abbreviations (b)

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1200, Notes Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 1408, Sinking Funds; 4010, Accounts Payable; 4020, Notes Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account.

ACCUMULATED DEPRECIATION CLASS A & B (SUB-CLASS ACCOUNTS)

Where subclassifications of primary plant accounts are used, report below the accumulated depreciation details for each subaccount. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone accumulated depreciation at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

General Footnote

Schedule Footnotes

Balance Sheet - Assets (Class B Use Accounts Designated By *) Footnote. Page 10

Accounts with zero balances are reported on a consolidated basis only.
Refer to the Verizon North Inc., FCC Form M.

Balance Sheet - Liabilities (Class B Use Accounts Designated By *) Footnote. Page 11

Accounts with zero balances are reported on a consolidated basis only.
Refer to the Verizon North Inc., FCC Form M.

Affiliated Interest Transactions Footnote. Page 15

The Revenues for Affiliate Interest Transactions on page 15 are not maintained on a state level. Please refer to the Verizon North Inc., FCC Form M.

Pursuant to the agreement between PSCW Staff, revenue, expense and other detail amounts are not required for the 2001 annual report. The total amount of each column is included on the "All Other" line in order to facilitate the summation function in the program.

Retained Earnings (Acct. 4550) Footnote. Page 37

This information is not maintained on a state basis.
Therefore, the "Balance Transferred from Income" is being offset against "Miscellaneous Debits to Retained Earnings" to zero out the "Balance - End of Year".

Refer to the Verizon North Inc., FCC Form M.

2180-AT-183

- 2) The affiliates with zeros reported either had no activity during the year or insignificant amounts. The records were imported from last years data and were left in to avoid any software problems.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

A) Explanations for Revenue Variances (page 40) that are greater than 20% and \$100,000 of previous years amount are as follows:

(5001) Repositioning (\$26.0 M).

(5002) Increase in EAS Access Lines \$4.1 M, repositioning (\$.1 M).

(5040) Repositioning (\$.1 M), decrease in Private line activity (\$.1 M).

(5082) Switched Access rates to carriers were decreased for the implementation of CALLS. The corresponding increase in End User Calc rates and the end user CALLS surcharge roll-up to FCC account 5081. Approximate decrease in FCC account 5082 due to CALLS is \$9.6 million. Also, as of 09/30/2000, 33% of Wisconsin access lines were repositioned to another company. Approximate revenue loss due to repositioning is \$4.5 million.

(5084.2) In July 2000 and July 2001, intrastate Switched Access rates to carriers were decreased for the implementation of CALLS, for certain states that mirror the interstate tariff (which includes Wisconsin). Approximate decrease in FCC account 5084.2 due to CALLS is \$4.0 million. Also, as of 09/30/2000, 33% of Wisconsin access lines were repositioned to another company. Approximate revenue loss due to repositioning is \$2.4 million.

(5160) Repositioning (\$.1 M), decrease in Directory Assistance activity (\$.1 M).

(5240) Repositioning (\$.3 M), decrease in UNE activity (\$.2 M).

(5263) Increase in interconnection rent expense \$.6 M.

(5280) Repositioning (\$2.5 M), decrease in CPE sales activity (\$3.3 M).

(5301) The Uncollectible Expense increase from 2000 to 2001 consists of Regulated and Carrier activity as follows:

REGULATED:

The monthly provisions decreased in total by \$27 K. This change was a result of the Annual Uncollectible Study. In addition, the Reserve Adjustment impact was an increase of \$683 K.

CARRIER:

The monthly provisions increased in total by \$42 K. This change was a result of the Annual Uncollectible Study. In addition, the Reserve Adjustment impact was an increase of \$35 K.

B) The account variance explanations for page 41, the Expense Matrix - Class A & B are as follows:

(6210) Total - Central Office Switching Expense: Decrease due to A/P Standing Accrual recorded in 2000, none recorded in 2001.

(6310) Total & Non-Reg. - Information Orig./Term. Expense: Overall decrease in allocations.

(6410) Total & Non-Reg. - Cable and Wire Fac. Expense: Overall decrease in allocations.

(6530) Non-Reg. - Network Operations Expense: Overall decrease in allocations.

(6540) Total - Access Expense: Decrease due to adjustments made to Platinum Standing Accrual.

(6560) Total & Non-Reg. - Depreciation and Amortization Expense: Overall decrease in recording depreciation and amortization expense.

(6610) Total - Marketing Expense: Decrease in allocations associated with Advertising costs.

(6620) Non-Reg. - Services Expense: Overall increase in costs associated with Internal Telecommunications.

(6710) Total - Exec. and Planning Expense: Overall decrease in allocations.

(6720) Total & Non-Reg. - General & Administrative Expense: Increase due to recording of Incremental BAU Pension Settlement Gains in 2000 and none recorded in 2001.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- C)** The balances in the "Transfers/Adjustments" column for the Telecommunications Plant in Service Class A & B and Telecommunications Plant in Service A & B (Sub-Class Accounts) schedules(pages 22-29) are due to prior year corrections or transfers between accounts.

The balances in the "Other" column for the Accumulated Depreciation Class A & B and Accumulated Depreciation Class A & B (Sub-Class Accounts) schedules are due to plant movement of prior year adjustments or reclass of plant investment.

There are several accumulated depreciation accounts with balances that exceed their corresponding plant in service account balances. Here is an explanation:

The 2220 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

The 2426 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

The 2431 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

The 2123.1 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

The 2421.2 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

The 2426.2 higher reserve account balance is primarily due to future net salvage values of 110% to cover the cost of removal.

- D)** Revenues are no longer available at the state basis for Affiliate Transactions on the schedule of Affiliated Interest Transactions (Page 15 Line 4). Please refer to the Verizon North Inc., FCC Form M.
- K)** Per request of PSCW staff, the amount in line 8 of the Calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes (page 43) reflects the amount of non-regulated net write-off. This adjustment is to properly calculate assessable revenues for 2001.
- O)** Intrastate Payphone Revenues were included in the Calculation of Assessable Revenues for Universal Service Fund Assessment Purposes (Page 43, line 5), in order to comply with PSCW Staff memo dated November 19, 1998. Since Payphone revenues were deregulated in 1997, they have to be reclassified from nonregulated revenues for the calculation of Assessable Revenues for Universal Service Fund Assessment Purposes.
- P)** The data for 64 kbps(DSO) on the Special Access Circuits in Use at End of Year (Page 49, line 3) is unavailable.
- Q)** Retained Earnings (page 37) is not maintained on a state basis. The Balance Transferred from Income amount is offset by the amount in the Miscellaneous Debits line in order to zero the total of this report.
- R)** Manufacturer Abbreviations (page 54) : The Vidar RSS hosted on Vidar Base at Mauston was replaced with a RELTEC DISC*S hosted on the GTD-5 Base at Wisconsin Dells.
