

4004

ANNUAL REPORT

OF

Name: WISCONSIN BELL INC.

Principal Office: 722 N BROADWAY FL 13
MILWAUKEE, WI 53202-4303

For the Year Ended: DECEMBER 31, 2001

**TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN**P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. (Example: The 2001 report is due April 1, 2002.) If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required.** Go to the Public Service Commission of Wisconsin's web page at <http://psc.wi.gov>, click on Telecommunications and click on Annual Report for Incumbent Local Exchange Carriers (LECs).
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Please report all dollar amounts to the nearest whole dollar.
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
12. The LEC annual report program incorporates provisional confidentiality capability for selected items, based on the Commission's confidentiality determination dated February 5, 2002.
13. It is not necessary to sign the signature page.
14. **Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files;
Filing the Completed Report:**

GENERAL RULES FOR REPORTING

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrcs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. Name Changes:

If a name change is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI.

These documents can be obtained by:

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at www.wdfi.org; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

While the electronic annual report filing may detail the name change (i.e., date of the change and the affected entities with their respective four-digit Commission utility identification numbers), a name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

16. Changes to the Annual Report Subsequent to Filing:

If making revisions to the report subsequent to filing with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of: <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	A central office switch which has no remote switching units (RSUs) subtending it.
Trunk	A communications path connecting two switching systems in the establishment of an end-to-end connection.
Wide Area Telephone Service (WATS)	Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.
Wire Center	The location of one or more local switching systems. A point at which customers' loops converge.

ABBREVIATIONS USED IN ANNUAL REPORTS

Acct	Account
Accum	Accumulated
Acq	Acquisition
Admin	Administrative
Alloc	Allocation
Amort	Amortization
CO	Central Office
Depr	Depreciation
Equip	Equipment
Exp	Expenses
EOY	End of Year
FOY	First of Year
Info	Information
ITC	Investment Tax Credit
Misc	Miscellaneous
Nonoper	Nonoperating
Nonreg	Nonregulated
Oper	Operating
Opns	Operations
Orig	Originating
Prop	Property
Receiv	Receivable
Reg	Regulated
Rev	Revenues
Svcs	Services
Telecom	Telecommunications
Term	Terminating
TPIS	Telecommunications Plant in Service
TPUC	Telecommunications Plant Under Construction
Uncoll	Uncollectible

Net Income	199,123,715	194,163,540	16

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

Basis of Accounting: The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) to the extent permitted by the Uniform System of Accounts prescribed by the Commission in Docket 05-US-102.

Reporting Requirements: Effective 10-01-90, the Commission directed Wisconsin Bell, Inc. (the "Company") to implement SR accounting and reporting requirements per Final Order in Docket 6720-TR-104 dated 09-05-90. Accordingly, the 2001 PSCW Annual Report is presented on an SR basis.

Revenues: Revenues are recorded when earned.

Depreciation: Effective 01-01-01 new intrastate depreciation rates were implemented per Docket 05-DT-104 dated 01-17-02. The company achieved a composite depreciation rate under the 9.25% allowance while maintaining the "net salvage" thresholds for each asset category.

On May 9, 2001, SBC Communications notified the Federal Communications Commission of their intent to adopt Statement of Financial Accounting Standard No. 133 regarding "Accounting for Derivative Instruments and Hedging Activities". To date there has been no impact to Wisconsin Bell, and no derivations or transition adjustment was required to the Income Statement.

Allowance for Funds Used During Construction (AFUDC): Effective 09-01-95, the calculation of AFUDC changed per Supplemental Order in Docket 05-US-102 dated 10-31-95. The capitalization base changed from long-term telephone plant under construction (TPUC) to all TPUC (Account 2003). The capitalization rate changed from prime rate to average cost of debt.

Pension and Employee Benefits: Effective 01-01-87, Ameritech adopted the provisions of Statement Financial Accounting Standards No. 87 (SFAS 87), "Employers' Accounting for Pensions". SFAS 87 specifies the determination of pension expense based on the projected unit credit actuarial method.

In accordance with PSCW approval on 10-28-93, the Company adopted the provisions of Statement of Financial Accounting Standards No. 106 (SFAS 106), "Employers' Accounting for Postretirement Benefits Other than Pensions" and Statement of Financial Accounting Standards No. 112 (SFAS 112), "Employers' Accounting for Postemployment Benefits" retroactive to 01-01-93. SFAS 106 requires the cost of postretirement benefits granted to employees to be recognized as expense over the period in which the employee renders service and becomes eligible to receive benefits. SFAS 112 requires accrual accounting for the cost of postemployment benefits provided to former or inactive employees after employment but before retirement.

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.
-
3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

ACCUMULATED DEPRECIATION CLASS A & B (SUB-CLASS ACCOUNTS)

Where subclassifications of primary plant accounts are used, report below the accumulated depreciation details for each subaccount. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone accumulated depreciation at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

SERVICE DATA - END OF YEAR (cont.)

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

SERVICE DATA - END OF YEAR (cont.)

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

Schedule Line Footnotes

- 0) The source of the write-off calculation is Tab 6 of the 2001 Earnings Monitor Report.
- 2) An entry to record the adjustment to SR deferred taxes (account 4370) to reflect the jurisdictional difference changes to the MR account balance. This adjustment reflects the accumulated impact of each years reduced SR based tax liability. The reduced tax liability comes from the reduction in SR annual net income associated with the SR annual depreciation expense. SR depreciation expense (account 6561) is higher than the annual MR account balance (PSCW Docket 05-DT-104). The adjustment became necessary when Ameritech aligned with SBCs definition of jurisdictional differences in year 2000, retroactive to 1996. The cumulative change to SR retained earnings is reflected in this entry.
- 8) There are no route miles associated with these non-serving switches.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- D)** Docket numbers listed as none: Commission regulations do not require docket numbers for affiliates with less than or equal to \$100,000 of activity.

Docket numbers listed as various are as follows:

AADS - Various: 6720-ATF-135, 6720-ATF-137, 6720-ATF-138

ACI - Various: 6720-ATF-139, 6720-ATF-140, 6720-ATF-141, 6720-ATF-142, 6720-ATF-143

AIT - Various: 6720-ATF-005, 6720-ATF-115

AMCI - Various: 6720-ATF-106, 6720-ATF-121, 6720-ATF-123, 6720-ATF-157, 6720-ATF-158

API - Various: 6720-ATF-127, 6720-ATF-128

SBCLD - Various: 6720-ATF-149, 6720-ATF-165

SBS - Various: The 1.3M represents tariffed services provided to SBS.

- E)** Wisconsin Bell adopted FCC RM-9341 effective January 2000. Account 2114 represents Tools and Other Work Equipment. Accounts 2115 and 2116 are no longer reported.
- F)** The amounts represent miscellaneous transfers and adjustments. This includes reclassifications of plant and corporate adjustment entries which do not include an initial expenditure.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES**G) p.40 2001 Revenue Accounts - Greater than 20% and \$100,000 Variance**

Account/ Explanations	2001	2000	Difference
5040 Increase primarily due to increase in Reseller activity (increase in CLECs choosing UNE-P).	45,810,977	33,469,647	12,341,330
5050 Increase due to Misc fluxes.	162,753	48,308	114,445
5082 Decrease primarily due to rate reductions in July of 2001 for various services and PICC elimination.	48,165,716	73,487,273	(25,321,557)
5084.2 Decrease primarily due to one time PICC accrual made in Dec 01 for \$-10M.	11,263,396	38,366,141	(27,102,745)
5084.3 Increase primarily due to increase in Reseller activity. Also, this amount includes totals for 5084.4, established in 1997 but no activity till 2001 - this was the viable field to include the amount.	31,746,570	21,785,849	9,960,721
5122 Increase due to 2 events: WI DOT, M&I, & WI Electric Power increase in Direct Analog Service & State of WI volume increase in services.	11,279,205	8,120,876	3,158,329
5240 Increase due to Co-location agreement increase.	14,995,613	7,650,254	7,345,359
5262 Increase relates to a corrective transaction previously booked to 5001.	1,463,468	1,211,255	252,213
5270 Decrease due to 13 months of revenue recognized in 2000 plus a true-up in 2001 credited back to AT&T to AOCs.	6,623,979	8,810,586	(2,186,607)
5301 Increase due risk from Colocators, End Users, and CLECs due to economic recession and bankruptcies.	33,600,599	16,350,092	17,250,507

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

H) The year-over-year account variance is primarily attributable to the following:

Account	2001	2000	Difference
6120	50,130,686	67,518,000	17,387,314
Explanation:	Reductions in building maintenance and lease expenses in 2001 due to consolidation of work force in company owned buildings. Reduction in IT hardware expenses associated with merger consolidation activities and workforce.		
6210	26,915,893	31,064,639	4,148,746
Explanation:	Reduction in digital central office repair and rearrangement expenses (labor and equipment purchases).		
6220	11,988	131,613	119,625
Explanation:	Reduction in operator systems expenses (equipment purchase and repair costs) in 2001.		
6230	14,804,225	12,123,167	2,681,058
Explanation:	Increase in labor related costs associated with subscriber pair gain equipment requests.		
6310	17,270,274	21,740,832	4,470,448
Explanation:	Reduction in volume of non-regulated customer premise equipment leases and installation/repair labor activity.		
6510	1,199,877	611,193	588,684
Explanation:	Increase in provisioning expenses (account 6512) associated with increase deployment of assets in 2001.		
6620	99,838,408	125,826,000	25,987,592
Explanation:	Decrease in customer service expenses due to regional staff consolidations and attrition.		
6710	7,925,746	1,715,793	6,209,953
Explanation:	Increase in executive expenses for services received from SBC affiliates.		
6720	50,869,285	71,292,000	20,422,715
Explanation:	Primarily due to decrease of accounting/finance and external relations expenses due to merger consolidations (many services provided by SBC affiliates rather than direct cost of Wisconsin Bell employees).		

K) Line 1 represents analog service data. Lines 2 through 10 contain only non-switched data.

O) Wisconsin Bell adopted FCC RM-9341 effective January 2000. Account 3100.2114 represents Accumulated Depreciation - Tools and Other Work Equipment. Accounts 3100.2115 and 3100.2116 are no longer reported. Beginning of Year balances in Accounts 3100.2115 and 3100.2116 were reclassified to Account 2114.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

P) Negative accrual amounts in column (e) were journalized in 2001 to prevent accumulated depreciation from exceeding investment net of salvage value. Column (k) amounts reflect the amortization of small value items and reserve reclassifications.

Q) Non-serving switch is: Burnett, PSC ID 0820, CO #1
Serving switch is: Beaver Dam, PSC ID 0380, CO #1

Customers in Burnett, PSC ID 0820, CO #1, are served by Beaver Dam, PSC ID 0380, CO #1. All data that is reported for Burnett is the same data as Beaver Dam except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

R) Non-serving switch is: Kenosha, PSC ID 2680, CO #2
Serving switch is: Parkside, PSC ID 4110, CO #1

Customers in Kenosha, PSC ID 2680, CO #2, are served by Parkside, PSC ID 4110, CO #1. All data that is reported for Kenosha is the same data as Parkside except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

S) Non-serving switch is: Menomonee Falls, PSC ID 3310, CO #2
Serving switch is: Milwaukee, PSC ID 3420, CO #20

Customers in Menomonee Falls, PSC ID 3310, CO #2, are served by Milwaukee, PSC ID 3420, CO #20. All data that is reported for Menomonee Falls is the same data as Milwaukee except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

T) Non-serving switch is: Merton, PSC ID 3370, CO #1
Serving switch is: Hartland, PSC ID 2270, CO #1

Customers in Merton, PSC ID 3370, CO #1, are served by Hartland, PSC ID 2270, CO #1. All data that is reported for Merton is the same data as Hartland except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

U) Non-serving switch is: Milwaukee, PSC ID 3420, CO #41
Serving switch is: Muskego, PSC ID 3620, CO #1

Customers in Milwaukee, PSC ID 3420, CO #41, are served by Muskego, PSC ID 3620, CO #1. All data that is reported for Milwaukee is the same data as Muskego except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

V) Non-serving switch is: North Lake, PSC ID 3870, CO #1
Serving switch is: Hartland, PSC ID 2270, CO #1

Customers in North Lake, PSC ID 3870, CO #1, are served by Hartland, PSC ID 2270, CO #1. All data that is reported for North Lake is the same data as Hartland except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- W)** Non-serving switch is: Racine, PSC ID 4450, CO #6
Serving switch is: Parkside, PSC ID 4110, CO #1

Customers in Racine, PSC ID 4450, CO #6, are served by Parkside, PSC ID 4110, CO #1. All data that is reported for Racine is the same data as Parkside except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

- X)** Non-serving switch is: Thiensville, PSC ID 5310, CO #3
Serving switch is: Cedarburg, PSC ID 1000, CO #1

Customers in Thiensville, PSC ID 5310, CO #3, are served by Cedarburg, PSC ID 1000, CO #1. All data that is reported for Thiensville is the same data as Cedarburg except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

- Y)** Non-serving switch is: Thiensville, PSC ID 5310, CO #1
Serving switch is: Milwaukee, PSC ID 3420, CO #9

Customers in Thiensville, PSC ID 5310, CO #1, are served by Milwaukee, PSC ID 3420, CO #9. All data that is reported for Thiensville is the same data as Milwaukee except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

- Z)** Non-serving switch is: Thiensville, PSC ID 5310, CO #2
Serving switch is: Milwaukee, PSC ID 3420, CO #13

Customers in Thiensville, PSC ID 5310, CO #2, are served by Milwaukee, PSC ID 3420, CO #13. All data that is reported for Thiensville is the same data as Milwaukee except for lines 14, 15, and 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.
