

4004

ANNUAL REPORT

OF

Name: VERIZON NORTH INC - WI OPERATION

Principal Office: 100 COMMUNICATIONS DR
P.O. BOX 49
SUN PRAIRIE, WI 53590-0049
PO Box Zip Code: 53590-0049

For the Year Ended: DECEMBER 31, 2003

TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. The annual report due date is April 1 of the following year. (Example: The 2002 report is due April 1, 2003.) If that date falls on a weekend or holiday, the annual report is due the following business day.
2. **Electronic filing via e-mail is required, unless additional provisional confidential treatment is desired.** Go to the Public Service Commission of Wisconsin's Web Page at <http://psc.wi.gov>, click on the Annual Reports icon, click on Annual Report Programs - Telecommunications, and click the appropriate program for Incumbent Local Exchange Carriers (LECs).
3. LEC entities with no revenues for the report year are required to file a LEC annual report.
4. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records of the utility in conformity with the Uniform System of Accounts prescribed by the Public Service Commission in docket 05-US-113. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
5. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used. However, please show the exact name of the respondent in full on the Identification and Ownership page.
6. Wherever information is requested in a "note," please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
7. Numeric items are limited to digits (0-9). Do not type commas when entering numbers. A minus sign "-" should be entered in the software program to indicate negative values. The program will convert the minus sign to parentheses if a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
8. Please report all dollar amounts to the nearest thousand dollars.
9. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
10. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, the previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
11. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the "Individual or firm, if other than utility employee, preparing this report" portion of the Identification and Ownership schedule, which describes the nature and extent of work performed.
12. The LEC annual report program incorporates provisional confidentiality capability for selected items, based on the Commission's confidentiality determination dated January 29, 2003, as supplemented for the new nonregulated schedules and a request for additional confidential treatment dated April 15, 2004.
13. It is not necessary to manually or electronically "sign" the signature page. It is not necessary to file a hardcopy of the annual report with the Commission.

GENERAL RULES FOR REPORTING

14. **Edit Check, Confidential Listing, Exported Annual Report, and Export Status Files; Filing the Completed Report:**

Program edit checks, which are located under the Admin dropdown menu, should be run at the completion of data entry. Each edit problem lists pertinent schedule(s) as well as the nature of the problem (such as "does not equal"). Edit items should be reviewed and corrected; unresolved problems should be footnoted in the report, if necessary. This screen automatically saves the edit checks to an .edt file that may be viewed and edited (for purposes of adding necessary notations) using a word processing package such as WordPad.

The confidential listing, which is located under the Admin dropdown menu, should also be run at the completion of data entry. This will create a .clf file.

Select the annual report to export from the Main-Report Selection window. Click Admin, Export Data to PSC to start the export process. This will create an .mdb file, which will subsequently be encrypted to a file with an .sen extension. An export status file is also created (with a .txt extension). The export status report file may also be viewed in a word processing package such as WordPad. If you encounter any export errors, please contact the Commission for assistance.

The .edt, .clf, .sen, and .txt files will be zipped to a file with a .zip extension. An e-mail message will be created, addressed to pscrecs@psc.state.wi.us. The .zip file is automatically attached to the e-mail message. After the e-mail is created, it will automatically be sent to the Commission.

Once received and processed by the Commission, you will receive a response indicating that your annual report has been received and is being processed. You will be notified if there are any problems with the annual report filing.

15. **Name Changes:**

If a name change (e.g., the new name, the date of the change, and the affected entities with their respective four-digit Commission identification numbers) is identified in the report, documents from the State of Wisconsin Department of Financial Institutions (DFI) also must be submitted to the Commission:

A domestic corporation should send a copy of the stamped page from its Articles of Amendment as filed with DFI. A foreign corporation should send a copy of their Amended Certificate of Authority as issued by DFI.

These documents can be obtained by:

1. Calling DFI at (608) 261-7577;
2. Contacting DFI on the web at <http://www.wdfi.org>; or
3. By writing to DFI at P.O. Box 7846, Madison, WI 53707-7846.

A name change is not effective in the Commission's records until a separate notification letter is sent to the Commission including documentation to confirm registration of that change with the State of Wisconsin Department of Financial Institutions.

16. **Changes to the Annual Report Subsequent to Filing:**

If making revisions to the report subsequent to an electronic filing with the Commission, resubmit the report via e-mail following the procedures set forth above in item number 14. New edit check, confidential listing, exported annual report, and export status files should be created as a result of the revisions.

Revisions to an annual report previously filed on a manual basis also require a new complete manual filing.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
Trunk	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
Wide Area Telephone Service (WATS)	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
Wire Center	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

ABBREVIATIONS USED IN ANNUAL REPORTS

Acct	Account
Accum	Accumulated

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

None .

2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None .

3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

None .

IMPORTANT CHANGES DURING THE YEAR

1. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates. Provide details and dollar amounts for increases and decreases, respectively, by revenue category noted on Operating Revenues schedule.

Date of Change	Description of Change	Effect on Revenue
1/1/2003	WI - Price Regulation -R1/B1 Local	0.9 million
7/1/2003	WI - Annual Filing -End User Calc-Inter	0.3 million
7/1/2003	WI - Annual Filing - Special Access - Inter	- 0.2 million

2. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

Verizon sold its remaining interest in AGCS on February 3, 2003. AGCS is no longer a Verizon Affiliate.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Name of Affiliate (a)	Abbreviations (b)	
Verizon Logistics, a division of GTE Communication Systems Co	GTE SUPPLY	1
Verizon California Inc.	VZ CA	2
Verizon Credit Inc.	VZ CREDIT	3
Verizon Services	VZ CSI	4 G

Bell Atlantic Communications, Inc. dba Verizon Long Distance	VZ LD	6
Verizon North Inc.	VZ NORTH	7
Verizon Corporate Services Group Inc.	VZ SVC	8
GTE Southwest Incorporated dba Verizon Southwest	VZ SW	9

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25 (,000) or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000 (,000), individual contracts or arrangements not exceeding \$100 (,000) may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing.

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1160, Temporary Investments; 1120, Cash and Equivalents (for other than former account 1160); 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1200, Notes Receivable; 1210, Interest and Dividends Receivable; 1170, Receivables (for other than former accounts 1180, 1190, 1200, and 1210); 1401, Investment in Affiliated Companies; 1408, Sinking Funds; 1410, Other Noncurrent Assets (for other than former accounts 1401 and 1408); 4010, Accounts Payable; 4020, Notes Payable; 4000, Current Accounts and Notes Payable (for other than former accounts 4010 and 4020); 4260, Advances from Affiliated Companies; and 4200, Long Term Debt and Funded Debt (for other than former account 4260). Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "Other" for a particular account.

SERVICE DATA - END OF YEAR (cont.)

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

CENTRAL OFFICE DATA - END OF YEAR

When an exchange has more than one central office, data must be reported for each central office.

Description (a)	Central Off. (b)	Central Off. (c)	Central Off. (d)	Central Off. (e)	
Exchange Name	WITWEN				1
PSCW Exchange ID	5990				2
Central Office Name	WITWEN				3
PSCW Central Office ID	1				4
Central Office CLLI Code	WTWNWIXARSO				5
Manufacturer of COE (Page 54)	GTE				6
Year COE Installed	1988				7
Type of Equipment (Page 54)	D				8
(S)tandalone, (H)ost, (R)emote, (A)dv Fiber Comm	R				9
Remote Host PSCW Exchange ID	4770				10
Remote Host PSCW Central Office ID	1				11
COE Generic Software Release No.	4008				12
SS7?	Yes				13
9-1-1?	Yes				14
Access Lines - In Use	705				15
- Equipped	910				16
- Wired	960				17
Trunks - In Use	10				18
- Equipped	16				19
- Wired	16				20
ISDN Available?	Yes				21
ISDN Lines - In Use (BRI)	0				22
- In Use (PRI)	0				23
XDSL Available?	No				24
- In Use (# lines)	0				25
Switched 56 Service?	Yes				26
Switched 56 lines in use	0				27
Digital Transmission Facilities: DS-1 - In Use	29				28
DS-3 - In Use	1				29
Advanced Data Service Available:					
Packet Switching?	No				30
SMDS?	No				31
Frame Relay?	Yes				32
ATM (Asynchronous Trans. Mode)?	Yes				33
Video Information - Service Available?	No				34
- In Use (# lines) ¹	0				35
Fiber Transmission Facilities:					
No. of fiber strands entering C.O.	48				36
No. of fiber strands working (LIT) in C.O.	4				37
No. of fiber strands for interoffice use	16				38
Miles of fiber sheath in wire center	5				39
Access Tandem Serving this C.O.:					
- C.O. Name	MADISON				40

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

A) Explanations for Revenue Variances (page 40) that are greater than 20% and \$100,000 of previous years amount are as follows:

(5081) (Intrastate) Decrease in Primary Interexchange Carrier (PIC) change charges billed to end user customers.

(5082)(Interstate) Switched Access rates and PIC rates to carriers were decreased for the implementation of CALLS. The corresponding increase in End User Calc.rates and the End User CALLS surcharge roll up to FCC account 5081. Also, in 2003 NECA lifeline activity was booked to Local and End User Calc. revenue instead of Interstate Switched Access.

(5082) (Intrastate) In July 2003, Intrastate Switched Access rates to carriers were decreased for the implementation of CALLS, for certain states that mirror the Interstate tariff (which includes Wisconsin).

(5100) Reduction in long distance usage by residential customers in Wisconsin in 2003.

(5300) The Uncollectible Expense decrease from 2002 to 2003 is driven predominantly by a \$.9M accrual for the MCI/WorldCom bankruptcy in 2002 and a (\$.4M) MCI settlement in 2003.

B) The account variance explanations for page 41, the Expense Matrix - Class A & B are as follows:

(6110) - Network Support Expense: Overall decrease in allocations.

(6230) - Central Office Transmission Expense: Overall decrease in expenses related to maintenance of Central Office Transmission equipment.

(6540)- Access Expense: Increase is due to Platinum standing accrual adjustment recorded in 12/02.

(6720) General & Administrative Expense: Overall increase in allocations.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- C) The activity in the "Transfers/Adjustments" column for the Telecommunications Plant in Service Class A & B and Telecommunications Plant in Service A & B (Sub-Class Accounts) schedules (pages 22-25) are due to prior year corrections or transfers between accounts.

The activity in the "Other" column for the Accumulated Depreciation Class A & B and Accumulated Depreciation Class A & B (Sub-Class Accounts) schedules (pages 26-29) are due to plant movement of prior year adjustments or reclass of plant investment.

There are several accumulated depreciation accounts with balances that exceed their corresponding plant in service account balances. Here is an explanation:

The 2122,2123,2124, and 2231 higher reserve account balances are due to a full month of depreciation booking in the month these accounts reached full recovery.

The 2421 and 2424 higher reserve account balances are primarily due to future net salvage values of 110% to cover the cost of removal.

The 2431 higher reserve account balance is primarily due to future net salvage values of 105% to cover the cost of removal.

The depreciation rates vary by subaccount for the following accounts: 2123,2421, and 2423. The detail depreciation rates for the associated subaccounts are on page 28.

The depreciation rate for account 2690.## is 33.33%.

Balance FOY for accounts 2112,2212,2231,2351,2362,2690/3500 will not tie to the Balance EOY per the 2002 Annual Report due to the exclusion of the non regulated amounts on this schedule for 2003.

- D) Only certain accounts are maintained and reported on a State basis. Refer also to General schedule footnotes for Pages 10 and 11. Therefore, for Prepayments, only account 1330 is reported. For other Current Liabilities, only account 4120 is reported. For other Liabilities and Deferred Credits, only account 4360 is reported. All other accounts in these line items are reported on a consolidated basis only.
- E) Interstate Long Distance Revenues are excluded from USF assessable revenues .
- G) Affiliate transactions noted as VZ CSI include transactions with the following affiliates:
Verizon Services Corp.
Verizon Services Group
Verizon Services Organization Inc.
- K) Per request of PSCW staff, the amount in line 8 of the Calculation of Assessable Revenues for Remainder, Department of Justice and Telephone Relay Assessment Purposes (page 43) reflects the amount of non-regulated net write-off. This adjustment is to properly calculate assessable revenues for 2003.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES

- O)** Intrastate Payphone Revenues were included in the Calculation of Assessable Revenues for Universal Service Fund Assessment Purposes (Page 43, line 5), in order to comply with PSCW Staff memo dated November 19, 1998. Since Payphone revenues were deregulated in 1997, they have to be reclassified from nonregulated revenues for the calculation of Assessable Revenues for Universal Service Fund Assessment Purposes
- P)** All exchanges reported null values for 64 kbps circuit types for both InterLATA and IntraLATA on the Special Access Circuits in Use at End of Year (Sch. 49, line 3).
- Q)** Retained Earnings (page 37) is not maintained on a state basis. The Balance Transferred from Income amount is offset by the amount in the Miscellaneous Debits line in order to zero the total of this report.
