1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

Ms. Beth Goninen, Clerk  
Linden Municipal Water Utility  
P.O. Box 244  
Linden, WI 53553-0244

Re: 1997 Analytical Review File DWCCA-3130-PJL

Dear Ms. Goninen:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. On page F-7, lines 4 and 6, column (b), total depreciation accruals of \$22,098.00 result in a composite rate of approximately 1.98 percent, which is the rate authorized for your utility. However, on page F-7, line 22, the composite rate is reported to be 1.68 percent. Please confirm that page F-7, line 22 should be changed to 1.98 percent.

2. During our review, we noted that the status for several schedules on the Schedule Listing in the electronic annual report was not changed from "not started" and/or "in progress" to "complete". It is important to change the status for all schedules, whether the schedule is left blank, or not, or is entirely derived from other schedules. That allows the PSC to determine that schedules have been finished, and, where left blank, were intentionally left blank rather than simply overlooked. Staff has changed all schedules' status to "complete" in our electronic copy. Please indicate if any "not started" schedules should have had data or if any "in progress" schedules were not complete. If any schedules were not complete or should not have been blank, please provide that data.

3. During our review we noted that you did not report purchased water in the Pumping and Purchased Water Statistics schedule on page W-10. You also did not report a source of water supply on page W-11. Please explain and provide all related annual report corrections.

4. In the 1996 annual report you reclassified \$327.00 from Account 372 to Account 372 on page W-7 of the Water Utility Plant In Service schedule. In 1997, you report \$327.00 in Account 372.1. Please explain and provide all related annual report corrections.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions,

### PROPERTY TAX EQUIVALENT (WATER)

1. No property tax equivalent shall be determined for sewer utilities or town sanitary district water utilities.

## WATER OPERATING SECTION FOOTNOTES

---

### Water Operation & Maintenance Expenses (Page W-05)

A/C 684 Insurance - Increase due to increase in total insurance paid during 1997. The utility was charged the same percentage of insurance for 1997, the expense was greater.

A/C 682 Outside Services - Decrease due to utility having a water utility map done in 1996 for approx. \$2,000.

---

### Water Utility Plant in Service (Page W-08)

Column F to record services added in 1997 that were incorrectly added to mains. Per PSC letter regarding 1996 report.

---

### Water Mains (Page W-15)

Mains were financed by the utility through its operating cash. Although other operating costs were financed by the Village.

---

### Water Services (Page W-16)

Added services for current year additions and services that were added last year. All services are or will be financed by customers through hook up fees when put into service. The utility paid for all of the additions from their operating cash.
