### RETURN ON RATE BASE COMPUTATION

1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

1997 Analytical Review DWCCA-0570-PJL

Dear Ms. Kammerude:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Please provide the names of the members of the utility commission, page iv.
2. In our letter of June 18, 1997, concerning our review of the utility's 1996 annual report we requested in item number 2 that the utility submit to the Commission details of your plan to deal with exceedingly high water losses which in 1996 were reported as 65 percent of total water sold. The Commission has not as of today's date received that plan and the water losses reported in the 1997 annual report have increased to 68 percent. The Wisconsin Administrative Code at PSC 185.85 directs each Class D water utility to reduce its unaccounted for water losses to a minimum of 25 percent. Bruce Schmidt, one of our engineers, will be following up with you concerning the water losses. Please feel free to call him at (608) 266-5726.

Please provide the plan referred to above at this time along with a detailed breakdown of the dollars reported in account 650, Repairs of water plant and account 600, Salaries and wages for both 1996 and 1997.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198.

Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege
