The 1997 promissory note should show (2,802) in column d to give an ending balance of \$37,825. Since column d will not allow a negative number this amount has been combined with the 1992 G.O. debt. The correct beginning amounts will be shown in the 1998 annual report.

(Note: report will be revised to allow negatives in 1998. etc)

Re: 1997 Analytical Review File DWCCA-6380-RL

Dear Mr. Kiekhaefer:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. During our review, we noted that the status for several schedules on the Schedule Listing in the electronic annual report was not changed from "not started" and/or "in progress" to "complete." It is important to change the status for all schedules, whether the schedule is left blank or not. That allows the PSC to determine that schedules have been finished, and, where left blank, were intentionally left blank rather than simply overlooked. Staff has changed all schedules' status to "complete" in our electronic copy. Please indicate if any "not started" schedules should have had data or if any "in progress" schedules were not complete. If any schedules were not complete or should not have been blank, please provide that data.

2. During our review, we noted a footnote on page W-8, for Account 336. We assumed this was for Account 332. Please respond with the correct account if this is incorrect.

3. By letter order dated August 7, 1996, revised depreciation rates to be effective January 1, 1997, were provided to your utility. The depreciation accruals on page W-10, column D, appear to reflect these new rates. However, the rates reported on page W-10, column C, are from previous years. Please provide the depreciation rates actually used during 1997 for column C of page W-10.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-1491. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.
