1998 Analytical Review DWCCA-3675-ELE

Dear Ms. Karaliunas:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Amortization of the balance in Account 181, Unamortized Debt Discount and Expense, should be charged to Account 428, Amortization of Debt Discount and Expense, rather than Account 404, Amortization Expense, page W-1. Please note this for future reference.
2. During our review, we noted that the total for Plant Operation and Maintenance Expenses, page W-1, decreased \$6,944 from 1997. Please furnish a brief explanation.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Elaine Engelke
