## WATER OPERATING SECTION FOOTNOTES

---

### Water Operation & Maintenance Expenses (Page W-05)

Variances in fuel or power purchased for pumping (620), chemicals (630), and repairs of water plant (650) - the first account has shown a consistent increase over the period 1997 - 1999, while the latter two accounts have shown a corresponding decrease over the same period. These variances all relate to the construction of a new water treatment facility, which became operational in 1999. In future years, the utility expects higher power purchased costs and lower chemical and repair costs.

---

### Property Tax Equivalent (Water) (Page W-07)

Property tax equivalent is forgiven by the general fund.

---

### Water Utility Plant in Service (Page W-08)

Additions to water treatment equipment was due to costs for completing water treatment plant well #5.

---

### Water Services (Page W-16)

The added services were financed by the city and individual property owners.
