1999 Analytical Review DWCCA-3700-ELE

Dear Mr. Delo:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

We noted customer contributions for mains and services reported in Account 271, Contributions in Aid of Construction. The schedule note for both the Water Mains and the Water Services schedule indicates that additions were financed "through the city's general taxes." Please provide further explanation of who contributed the amounts in Account 271. Were the mains and services a special assessment? If so, explain the basis of the assessment and if it was deferred. Please indicate if any services were charged per Cz-1, Water Lateral Installation Charge.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. If it is convenient for you to respond by e-mail, please do so. My e-mail address is engele@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Elaine Engelke
