1999 Analytical Review DWCCA-3910-PJL

Dear Mr. Fahrbach:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

During our review, we noted that the \$3,170 reported in column (c) of line 30 on page W-8 as the cost of the 16 water meters reported as added during the year on page W-17 appears high when compared to the state wide average. Please provide copies of the invoices for those meters.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege  
Financial Specialist  
Division of Water, Compliance, and Consumer Affairs

24 meters at a cost of	\$2,226
1 pc testing equip	\$1,054
<hr/>	
Total	\$3,170

Utility will adjust their records, we will verify in 2000 report.
