WATER OPERATING SECTION FOOTNOTES

Water Operating Revenues - Sales of Water (Page W-02)

Metered sales to residential customers includes customers that share a meter and the water utility bills each of them individually.

Other Operating Revenues (Water) (Page W-04)

New public fire protection service authorized base rate from water rate increase.

Water Operation & Maintenance Expenses (Page W-05)

Repairs of water plant - The increase in repairs for 1999 is due to water main breaks during the year that totaled \$19,120. Also, a \$9,000 bill was received for repairs to water tower expansion joint for work done about five years ago. The amount of the bill was in question and we returned the bill to the contractor and did not hear back. In 1999, we received a revised bill for the work performed and paid it.

Meters (Page W-17)

The Random Lake water utility uses an exchange program to rotate its meters used for water sales. An outside company picks up used meters and replaces them with rebuilt meters that are tested by them. For the year ended 1999, no meters were exchanged because of low cash funds available and no meters were tested by utility employees for the same reason.
