1999 Analytical Review DWCCA-870-ELE

Dear Ms. Neumann:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

During our review, we noted an assessment ratio of 0.000000 reported on the Property Tax Equivalent schedule, resulting in a tax equivalent of 0 for 1999. Please provide the assessment ratio for 1999 and follow this procedure in the future. Also, in the future, please fully complete this schedule to result in a current tax equivalent greater than 0, even if a lower tax equivalent of 0 is authorized. Please provide the municipal authorization (date of minutes, etc.) authorizing a tax equivalent of 0. In addition, in the future, the tax rate should be reported in mills. For example: .000256 should be reported as .256.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 266-3768. Please respond within 30 days of this letter. If it is convenient for you to respond by e-mail, please do so. My e-mail address is engele@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Elaine Engelke
