1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

2000 Analytical Review DWCCA-2620-ELE

Dear Mr. Haltom:

Public Service Commission staff has completed the analytical review of your 2000 annual report. The primary purpose of the analytical review is to detect possible accounting related errors and to identify significant fluctuations from prior year's data, which are not sufficiently explained in the footnotes of your annual report. We have no questions only the following comment.

1. During our review, we noted \$9,258 reported in Account 474, Other Revenues (Water), page W-4, described as "miscellaneous." In the future, amounts greater than \$5,000 are to be briefly described with more than the account title, miscellaneous, or other as a description.

2. We are enclosing our calculation of the Public Fire Protection Service Charge which is \$1,150.32 greater than the amount reported on the Other Revenues (Water) schedule, page W-4. In the future, please use our method of calculating the Public Fire Protection Service Charge, or footnote the annual report explaining the reason for any difference.

Thank you for your efforts in preparing your 2000 annual report. We are closing the review of your 2000 annual report. If you have any questions, please feel free to contact me at (608) 266-3768 or by e-mail at engele@psc.state.wi.us.

Sincerely,

Elaine Engelke

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

Account 625 decreased because 1999 had approximately \$14,000 of repairs to a motor.

Account 631 increased due to additional purchases of aquadene.

Account 651 increased because of more main breaks in 2000.

Account 923 increased because of a high/low pressure zone study for \$27,835, as well as payments for operating costs of Central Brown County Water Authority of \$61,550.

Water Mains (Page W-15)

Water mains were paid for with utility and developer funds.

Water Services (Page W-16)

Water services were paid for with utility and developer funds.

Hydrants and Distribution System Valves (Page W-18)

Hydrants were paid for with utility and developer funds.

The utility is currently developing a testing plan for distribution valves. The utility has hired one additional employee that should be the primary person for testing system valves.
