1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include property held for future use or construction work in progress with utility plant in service. These are not rate base components.

2000 Analytical Review DWCCA-3675-PJL

Dear Ms. Karaliunas:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. In the Balance Sheet End-of-Year Account Balances schedule on page F-18, special assessments of \$137,860 are reported in Account 143, Other Accounts Receivable. In the future, please note that assessments which will be collected over a period of more than one year should be reported in Account 124.
2. During our review, we noted that the utility did not report any depreciation expense on meters charged to sewer, (Account 110), return on net investment in meters charged to sewer department, (Account 474), or local and school tax equivalent on meters charged to sewer department, (Account 408). If a sewer department uses the water meter to measure sewer volume for purposes of charging for sewer service, the water utility must charge the sewer department for its share of water meter costs. See Section 4, Pages 10 and 11 of the Water Utility Reference Manual (enclosed). Please confirm that the sewer department does not use the water meter to measure sewer volume. If the sewer department is using the water meter, please confirm that your utility will begin to allocate the water meter costs on your 2001 books.
3. During our review of the footnotes for the Water Services schedule on page W-16, we noted that it is explained that the property owner was assessed \$3,392 for the new one inch service reported as added during the year. Please explain why the Cz-1 rates were not used in this case and also explain the difference between the amount charged the customer, the amount added to Account 345 on page W-8, and the \$6,784 reported as contributions for water services on page F-17.
4. As directed in the head notes of the Water Operation & Maintenance Expenses schedule on page W-5, please provide an explanation of any expense account which changed by \$2,000 and 30% when compared to the previous year and follow this procedure in the future.

### FINANCIAL SECTION FOOTNOTES

5. During our review, we noted that while the Village of Milladore is in both Wood and Portage counties, the Property Tax Equivalent schedule on page W-7 is completed for Wood county only. In the future, please use the "Insert Record" icon on the toolbar to add a second record and complete a record for each county.

6. Please note that in the future the dollars reported in Account 690, Uncollectible Accounts on page W-5 should also be reported as a deduction on the Revenues Subject to Wisconsin Remainder Assessment schedule on page F-4.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Response received by fax on 7/23/01:

- 1) noted
- 2) sewer does not use water meters to measure volume
- 3) "Two new services were assessed in 2000, one was installed with the cost to install in account 345 on page W-8. The other service's cost will occur in 2001 when it was completed and billed by the vendor. The utility assesses \$3,392 for all new services."
- 4) a/c 690, two assessments were written off as two parcels of land were tax deeded to the village.

Kathy Butzlaff followed up on item # 3 by faxing Jeff Cropp a copy of the CZ-1 along with notes on how to charges for services. He responded with a fax saying: We have noted your comments for future reference. Per Dave Sheard, we need more info on the services added in '99 & 2000.

Faxed the following question to Jeff Kropp on 8/31/01:  
As follow-up on Milladore Water Utility, we would like more detail on the services added in 1999 & 2000. Please explain if those customers were assessed for mains or were there only services added on their behalf?  
Thanks.

Jeff responded on 9/6/01 that no mains were added in '99 or 2000

Jeff:

Regarding our continuing conversation concerning Milladore Water Utility's 2000 annual report, unless there are circumstances not yet explained to us, the one customer added in 1999 and the 2 added in 2000 should be refunded the difference between the \$450 authorized by the Cz-1 rate schedule and the \$3,392 charged the customer. Please confirm this will be done or explain why you feel the customers were charged the proper amount.

Thanks for your time.

Pete
