2002 Analytical Review DWCCA-2780-ELE

Dear Mr. Streuck and Mr. Brockman:

The Public Service Commission (Commission) staff previously completed an analytical review of your utility's 2002 annual report. Two additional items have been reviewed by our staff engineer, Peter Feneht.

1. On Page W-8, additions were reported to plant accounts 314, 325 and 332 related to "completion of new well." This matter was referred to our staff engineer, Peter Feneht for review of the construction authorization. He has been in contact with your office and Mary Jo Miller from Gremmer & Associates. In your 2003 annual report, working with Ms. Miller and your accounting firm, adjustments should be booked to plant accounts to classify all dollars relating to the new well to the correct accounts. Apparently construction costs go back to 1999 and include preliminary fees, structures, land and chemical feed equipment, among other additions. Please use the adjustment column on Page W-8 to reclassify well costs from one account to another and to allocate well construction costs that have not been previously reported

2. On Page W-17, only four meters are reported tested and none are reported replaced. In the future, please make every effort to test and replace meters in compliance with the Wisconsin Administrative Code.

Thank you for your cooperation with these items. If you have any questions, please feel free to contact me at (608) 266-3768.

Sincerely,

Elaine Engelke
