1. The data used in calculating rate base are averages.
2. Calculate those averages by summing the first-of-year and the end-of-year figures for each account and then dividing the sum by two.
3. Note: Do not include contributed plant in service, property held for future use, or construction work in progress with utility plant in service. These are not rate base components.

FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

For values that represent an increase or a decrease when compared to the previous year of greater than 30%, but not less \$2,000, please explain.

Acct 650 - In 2006 the Village incurred costs for surveying, inspection and services related to minor repairs to Well #3. Surveying and inspection occurs approxiamately every 10 years, which explains why there was a decrease in expenses from the previous year.

Acct 686 - Benefits are allocated to the water fund based on wages of employees. In 2007 the wages for water employees decreased therefore decreasing the benefits allocated to the water fund.

Acct 682 - The water department had to replace a water main, in order to replace the main the Village had to hire a contractor to do some of the work. The amount of the contractor bill was \$3,433.

Property Tax Equivalent (Water) (Page W-07)

If Other Tax Rate - Local and/or Other Tax Rate - Non-Local are greater than zero, please explain.

The other local tax rate relates to the Lake District.

Water Mains (Page W-17)

If Added During Year column total is greater than zero, please explain financing following the criteria listed in the schedule headnote No. 5.

The Water Mains were financed through a Federal Block Grant that the Village received.

Water Services (Page W-18)

If net additions are greater than zero, please explain financing by following criteria listed in schedule headnote No. 3.

The Water Service was financed through a Federal Block Grant that the Village received.

Meters (Page W-19)

Explain all reported adjustments.

Two meters were installed during the year, which were taken out of inventory.

Explain program for replacing or testing meters 1" or smaller.

The Village test on a cycle of every 10 years.

Ss. PSC 185.83(2) states "Station meters shall be maintained to ensure reasonable accuracy and shall have the accuracy checked at least once every 2 years." Are all station meters being tested every two years? Answer yes or no. If no, please explain.

Yes
