FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

Industry (a)	FTE (b)	*	1
Water	0.0	*	1
Electric			2
Gas			3
Sewer			4

The village has no full time employee. We contract fulltime employee with the Village of Potosi for waterworks.

For values that represent an increase or a decrease when compared to the previous year of greater than 30%, but not less \$2,000, please explain.

Wages from 2007 were missed due to changes with several employees for the Sewer and Water Commission in 2007. We received no invoice for work done in 2007 until fiscal year 2008. Increase was due to 2 years salaries. 2009 we received the normal cost for yearly wage.

We test water and add chemicals per the requirements of the state. Pay the bills as they are received. More chemicals needed to meet requirements.

The village tested 22 meters this fiscal year. Of the 22 meters tested nine were bad and were replaced with six new meters. 22 meters tested were 0.625 in size. We did test the main 6" meter for the village and it is working good.

Explain all reported Adjustments.

The village has No utility owned service that are not in service. Zero came in as default.

If Utility-Owned Service Not In Use at End of Year is reported as zero, please explain.

The village has No utility owned service that is not in service. Zero came in automatically/by default.
