FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

Industry (a)	FTE (b)	*	1
Water	3.0	*	1
Electric			2
Gas			3
Sewer			4

FULL-TIME EMPLOYEES (FTE)

Full-Time Employees (FTE) (Page F-06)

General footnotes

During 2008 the number of FTE's reported was 2; however, in the current year a third of an FTE was added for the two village clerks and director of public works as their time is split between the utility's and village.

Water Operation & Maintenance Expenses (Page W-05)

For values that represent an increase or a decrease when compared to the previous year of greater than 25%, but not less \$5,000, please explain.

622- Power Purchased for Pumping, the increase is due to an increase in KWH for pumping purchased during the year.

651 - Maintenance of Mains, The increase in the current year relates to significant water main repairs 6.

625 - Maintenance of Pumping Plant, The current year increase relates to repair for the well house roof and reconfiguring controls for well #3.

928 - Regulatory Commission Expense, This expense is for the test year 2010 rate study.

923 - Outside Services Employed, the decrease in the current year relates to engineering fees related to the Well #3 litigation in 2008 and the associated write-off of the costs of a search for a new well that was abandoned.

640 - Operation Labor - In 2008 a third of another village employee's salary was charged to this labor account for assisting the utility in flushing hydrants.

PROPERTY TAX EQUIVALENT (WATER)

1. No property tax equivalent shall be determined for sewer utilities or town sanitary district water utilities.
2. Tax rates are those issued in November (usually) of the year being reported and are available from the municipal treasurer. Report the tax rates in mills to six (6) decimal places.
3. The assessment ratio is available from the municipal treasurer. Report the ratio as a decimal to six (6) places.
4. The utility plant balance first of year should include the gross book values of plant in service (total of utility financed and contributed plant), property held for future use and construction work in progress.
5. An "other tax rate" is included in the "Net Local and School Tax Rate Calculation" to the extent that it is local. An example is a local library tax. Fully explain the rate in the Property Tax Equivalent schedule footnotes.
6. The Property Tax Equivalent to be reported for the year is determined pursuant to Wis. Stat § 66.0811(2). Report the higher of the current year calculation or the tax equivalent reported in the 1994 PSC annual report, unless, the municipality has authorized a lower amount, then that amount is reported as the property tax equivalent.
7. If the municipality has authorized a lower amount, the authorization description and date of the authorization must be reported in the Property Tax Equivalent schedule footnotes.

If Utility-Owned Service Not In Use at End of Year is reported as zero, please explain.

This is consistent with the prior year.

METERS

1. Include in Columns (b), (c), (d), (e) and (f) meters in stock as well as those in service.
2. Report in Column (c) all meters purchased during the year and in Column (d) all meters junked, sold or otherwise permanently retired during the year.
3. Use Column (e) to show correction to previously reported meter count because of inventory or property record corrections.
4. Totals by size in Column (f) should equal same size totals in Column (o).
5. Explain all reported adjustments as a schedule footnote.
6. Do not include station meters in the meter inventory used to complete these tables.
