

Rural Energy Startup Program Webinar

Thursday, December 14 from 10 AM - 11:30 AM

Hello Sarah,

I wanted to let you know that the Office of Energy Innovation (OEI) at the Public Service Commission of Wisconsin opened a grant program on November 30 which may be of interest to you—the Rural Energy Startup Program (RESP).

RESP is funded through the Department of Energy's Energy Efficiency and Conservation Block Grant (EECBG) and supports communities in taking initial steps to understand and reduce energy use. The grant provides \$2.3 million for rural local governments to support comprehensive energy planning, renewable resource planning, and energy efficiency audits and projects. To help you with your energy planning activities, there is a link identifying consultants who have made themselves known as providing energy planning services on the [RESP website](#).

OEI is hosting a webinar about the program this Thursday, December 14, from 10 AM – 11:30 AM. We encourage you to attend: [register here](#).

If you have any questions about the grant program, consultant list, or any other energy planning or technical assistance needs, please feel free to contact the OEI office at OEI@wisconsin.gov.
