Notice of Intent (NOI) submittal requires development of a construction site erosion control plan (ECP)
<https://dnr.wisconsin.gov/topic/Stormwater/construction>

Utilization of construction site BMP's following approved technical standards at disturbed areas to promote site stabilization(silt fence, wattles, seed/mulch, etc.)
https://dnr.wisconsin.gov/topic/Stormwater/standards/const_standards.html

No activity is authorized that impacts DNR land, including road rights-of-way where DNR is the underlying fee owner without a land rights conveyance from the DNR Real Estate Program (<https://dnr.wisconsin.gov/topic/lands/realestate/Contacts>) through an application process (<https://dnr.wisconsin.gov/topic/fl/RealEstate/ConveyedOnlineApplication>). DNR owned lands may be encumbered by the Federal Government or other prohibitive easements or restrictions may exist that outright prohibits crossing DNR lands or requires a review and approval from other parties. **Please reach out early to DNR Real Estate before a route is decided to mitigate these concerns.**
