PSC to Participate in Governor's Northern Wisconsin Economic Development Summit

Madison - The Public Service Commission of Wisconsin (PSC) will be participating at Governor Walker's Northern Wisconsin Economic Development Summit this week. The summit is designed to bring together business and community leaders in the region to discuss the economic challenges and opportunities to grow the economy.

The summit will be held December 13th and 14th at the Heartwood Conference Center in Trego, WI. For more information on the summit click here: <http://northwoodssummit.com>

The Public Service Commission will provide insight in two areas important to the economy:

Broadband Mapping, Planning and Deployment for Economic Development in Northern Wisconsin: Representatives from the Public Service Commission of Wisconsin will provide an update on broadband mapping, planning and deployment efforts in northern Wisconsin. This session will walk through the best places, practices and efforts being made to encourage broadband deployment in northern Wisconsin.

For more information on Wisconsin's current broadband follow this link:

Energy Savings Opportunities for Your Business: Wisconsin's Focus on Energy program works with eligible Wisconsin residents and businesses to install cost-effective energy efficiency and renewable energy projects. Co-operative and Municipal utilities have the option to either participate in Focus on Energy, or operate their own energy efficiency program. Representatives from the PSC, Focus on Energy, and a Wisconsin Cooperative will provide an overview of the resources and financial incentives available to help businesses implement energy-savings projects. Attendees will learn how Focus on Energy and other energy efficiency programs can help them manage rising energy costs, promote in-state economic development, protect our environment, and control the state's growing demand for electricity and natural gas.

For more information on Focus on Energy or Dairyland Power Cooperative programs follow the following links:
