

4004

ANNUAL REPORT

OF

Name: WISCONSIN BELL INC.

Principal Office: 722 N BROADWAY
MILWAUKEE, WI 53202-4303

For the Year Ended: DECEMBER 31, 1997

**TELECOMMUNICATIONS UTILITY
TO
PUBLIC SERVICE COMMISSION OF WISCONSIN**P.O. Box 7854
Madison, WI 53707-7854
(608) 267-9504

This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.

GENERAL RULES FOR REPORTING

1. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records in conformity with the Uniform System of Accounts prescribed by the Public Service Commission of Wisconsin in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
2. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used, however please show the exact name of the respondent in full on the "Identification and Ownership" page.
3. Wherever information is requested in a "note", please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
4. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. Do not use parentheses for numeric values. The program will convert the minus sign to parentheses when a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
5. Please report all dollar amounts to the nearest whole dollar.
6. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
7. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, that previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
8. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the notes to the income statement or the balance sheet, which describes the nature and extent of work performed.
9. Please print a hard copy of the annual report on 20 pound or heavier paper, sign it and compare with the electronic copy before officially filing it with the Public Service Commission of Wisconsin.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Access Line	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
Analog Signal	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
Cellular System	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
Central Office	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
Centrex	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
Channel	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
Customer	A person who uses a telephone as a subscriber.
Digital Signal	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
Equal Access	The ability of the subscriber to use any long distance service by dialing the same number of digits.
Exchange	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
Extended Area Service (EAS)	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
Extended Community Calling (ECC)	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
Feature Group A	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Feature Group B	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
Feature Group C	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
Feature Group D	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
FX-IN	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
FX-OUT	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
Host Switching System	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
Local Access Transport Area (LATA)	A geographic area within which an operating company may offer its telecommunications services.
Mobile Telephone	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
Paging	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
Pair	Two wires of a single circuit.
Pay Station	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
Private Line Service	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
Private Branch Exchange (PBX)	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
Radio Common Carrier (RCC)	A company which furnishes public telecommunications service using one or more radio channels.
Remote Switching Unit (RSU)	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS

Route Miles	Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of: <ol style="list-style-type: none">1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.2. One mile of a cross country route with any combination of outside plant facilities.3. One mile of point-to-point microwave or radio link.4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.5. One mile of joint use line where the utility either owns the facility or leases space.
Stand Alone Switch	A central office switch which has no remote switching units (RSUs) subtending it.
Trunk	A communications path connecting two switching systems in the establishment of an end-to-end connection.
Wide Area Telephone Service (WATS)	Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.
Wire Center	The location of one or more local switching systems. A point at which customers' loops converge.

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

See Footnote A of the Schedule Line Footnotes on separate Word Processing document printout.

A) The notes to the income statement and balance sheet referenced on page 9 are as follows:

1. Significant Accounting Policies

Basis of Accounting - The financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) to the extent permitted by the Uniform System of Accounts prescribed by the Commission in Docket 05-US-102.

Reporting Requirements - Effective 10-01-90, the Commission directed Wisconsin Bell, Inc. (the 'Company') to implement SR accounting and reporting requirements per Final Order in Docket 6720-TR-104 dated 09-05-90. Accordingly, the 1997 PSCW Annual Report is presented on a SR basis.

Revenues are recorded when earned.

Depreciation - Effective 01-01-97, new intrastate depreciation rates were implemented per Order in Docket 05-DT-102 dated 09-11-97. The Company implemented the maximum composite rate of 8.75%.

Allowance for Funds Used During Construction (AFUDC) - Effective 09-01-95, the calculation of AFUDC changed per Supplemental Order in Docket 05-US-102 dated 10-31-95. The capitalization base changed from long-term telephone plant under construction (TPUC) to all TPUC. The capitalization rate changed from prime rate to average cost of debt.

Pension and Employee Benefits - Effective 01-01-87, Ameritech adopted the provisions of Statement Financial Accounting Standards No. 87 (SFAS 87), 'Employers' Accounting for Pensions.' SFAS 87 specifies the determination of pension expense based on the projected unit credit actuarial method.

In accordance with PSCW approval on 10-28-93, the Company adopted the provisions of Statement of Financial Accounting Standards No. 106 (SFAS 106), 'Employers' Accounting for Postretirement Benefits Other than Pensions,' and Statement of Financial Accounting Standards No. 112 (SFAS 112), 'Employers' Accounting for Postemployment Benefits,' retroactive to 01-01-93. SFAS 106 requires the cost of postretirement benefits granted to employees to be recognized as expense over the period in which the employee renders service and becomes eligible to receive benefits. SFAS 112 requires accrual accounting for the cost of postemployment benefits provided to former or inactive employees after employment but before retirement.

Work Force Reduction Programs - During 1994, Ameritech announced a plan to reduce its existing nonmanagement work force through implementation of an

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

enhancement to the Ameritech Pension Plan by adding three years to both the age and net credited service of eligible employees who leave the business during a designated period ending in 1995. As of 12-31-97, 1,125 employees have left the Company as a result of this work force reduction plan. The total cost of the plan to the Company during 1994 and 1995 equaled \$67.653 million. The Company accounted for these costs in accordance with Statement of Position (SOP) 95-02, Accounting for Work Force Reduction Programs for Telecommunications Utilities for Public Service Commission of Wisconsin Purposes, as approved by the Commission on 11-01-95.

Effective 01-01-95, management employees asked to leave the Company will receive a severance payment under the Management Separation Benefit Program. The Company accounts for this benefit in accordance with SFAS 112, 'Employers' Accounting for Postemployment Benefits,' accruing the separation cost when incurred. 1997 and 1996 activity under this program involved 3 and 23 employees, respectively.

Reduction of the work force under both programs reflects technological improvements, consolidations, and initiatives to balance cost structure with emerging competition.

(continued in item 2 below)

NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

-
2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

(the following is pasted from Word document 8/15/98 ele and is a continuation of Item 1 above):

Income Taxes - The Company is included in the consolidated federal income tax return filed by Ameritech and its subsidiaries. Effective 01-01-94, the Company adopted the provisions of Statement of Financial Accounting Standards No. 109 (SFAS 109), 'Accounting for Income Taxes,' as approved by the PSCW on 03-23-93. The new accounting method is essentially a refinement of the liability method previously followed by the Company and accordingly did not have a significant impact on the Company's financial statements upon adoption. The Company's provision for income taxes is determined effectively on a separate Company basis. Consolidated income tax currently payable is allocated to the Company based on the Company's contribution to consolidated taxable income and tax credits.

Deferred tax assets and liabilities are based on differences between the financial statement basis of assets and liabilities and the tax basis of those same assets and liabilities. Under the liability method, deferred tax assets and liabilities at the end of each period are determined using the statutory tax rates in effect when these temporary differences are expected to reverse. Deferred income tax expense is measured by the change in net deferred income tax assets or liabilities during the year.

Income tax expense reflects use of the FCC method of full normalization of accounting for all book/tax timing differences as adopted by the PSCW on 12-12-89. The original estimated amount to be amortized of \$11.186 million was reduced to \$10.006 million. The original amortization period of 6 years was reduced to 5.4 years. Final amortization was booked in February, 1997.

The Company uses the deferral method of accounting for investment tax credits. Therefore, credits earned prior to the repeal of the investment tax credit by the Tax Reform Act of 1986 and also certain transitional credits earned after the repeal are being amortized as reductions in tax expense over the life of the plant that gave rise to the credits.
[pasted from Word document 8/14/98 ele]

-
3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

None

NET CASH USING IN INVESTING ACTIVITIES	(196,190,386)	
CASH FLOWS FROM FINANCING ACTIVITIES		
Change in capital lease obligations (net)	0	15
Change in long-term debt (net)	242,774	16
Net changes in stockholder equity other than retained earnings	88,096	17
Change in short term borrowing (net)	47,989,990	18
Dividends paid	(188,590,000)	19

STATEMENT OF CASH FLOWS

Item (a)	Amount (b)	
CASH FLOWS FROM FINANCING ACTIVITIES		
Miscellaneous debits/credits to retained earnings	0	20
Other (specify):		
Net Cash Provided by Financing Activities	(140,269,140)	
NET INCREASE IN CASH AND CASH EQUIVALENTS		940,044
Cash and cash equivalents at beginning of year (Accts. 1130-1160 for Class A; 1120 for Class B)		
Cash and cash equivalents at end of year (Accts. 1130-1160 for Class A; 1120 for Class B)		

IMPORTANT CHANGES DURING THE YEAR

1. Give the name and address of all companies which during the year came under the direct control of the respondent otherwise than through title to securities, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

Item 1 None

2. Give the name and address of all companies which during the year came under the indirect control of the respondent through non-reporting intermediaries, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, the name and address of the intermediary through which the indirect control exists, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

Item 2 None

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, and other conditions.

Item 3 See Footnote B on page 56

B

B)Page 13, Important Changes During the Year, Item 3 information is as follows:

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue.

Item 6 None

7. Changes in articles of incorporation or amendments to charter.

Item 7 None

IMPORTANT CHANGES DURING THE YEAR

8. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

Item 8 See Footnote E on page 56

E

E) Page 13, Important Changes During the Year, Item 8 information is as follows:

The FCC ruled in April 1997 that Ameritech has met all competitive requirements under the pay phone portion of the 1996 Act. The move to deregulate pay phone services culminated in October 1997, when responsibility for setting the price of a local pay phone call was transferred from state regulators to the competitive marketplace. Many of the provisions included in the 1996 Act, which served as the road map for pay phone deregulation, were patterned after competitive pay phone measures already in place in Illinois and Michigan. Effective April, 1997, payphone equipment has been reclassified to non-regulated status pursuant to the Order in CC Docket No. 96-128 released September 20, 1996.

AFFILIATE ABBREVIATIONS

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

Starline Insurance Company	SIC	21

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

AFFILIATED INTEREST TRANSACTIONS

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

AFFILIATED ASSETS AND LIABILITIES

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 4010, Accounts Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account. Affiliated amounts recorded in accounts 1200, Notes Receivable, 1408, Sinking Funds, and 4020, Notes Payable, should not be reported in this schedule, but rather in the respective schedules contained elsewhere in this report.

Name of Affiliate (a)	Account Number (b)	Balance EOY (c)

ACCUMULATED DEPRECIATION CLASS A & B (SUB-CLASS ACCOUNTS)

Where subclassifications of primary plant accounts are used, report below the accumulated depreciation details for each subaccount. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone accumulated depreciation at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

NET DEFERRED OPERATING INCOME TAXES (ACCT. 1350, 1410, 1437, 4100, 4340, 4341 & 4361)

This schedule should be used to report the deferred operating income tax portion of the stated accounts. In addition, column (e) of this schedule should be used to report the flowback of property related excess deferred taxes (e.g., 46 percent versus 34 percent federal tax rates). Credit amounts should be shown in ().

LONG-TERM DEBT

Report data requested and show total for each long-term debt account at end of year. Information concerning the following debt issues may be reported on individual lines in aggregate: REA/RTB 2%, REA/RTB 5%, & REA/RTB 7%. In addition, REA/RTB and FFB debt, respectively, within a range of 200 basis points may also be reported in aggregate on individual lines. If reported in aggregate, a range of dates may be reported in columns (b) and (c) as well as a range of interest rates in column (d) and a composite interest rate in column (e). If aggregation is not utilized, column (e) should contain the same interest rate as reported in column (d). For account 4050 report only the amount of debt anticipated to be repaid in one year or less.

NONREGULATED NET INCOME (ACCT. 7990)

Particulars (a)	Amount (b)	
Revenues (Acct. 7990.1)		
Gross Sales		1
Less: Cost of Goods Sold		2
Net Sales	0	3
Expenses (Acct. 7990.2)		4
Nonregulated Net Income	0	5

List the type of nonregulated activities that company is involved in:

- | | |
|--------------------------------------|---------------------------------------|
| Customer Dialed Account Recording | Professional Services |
| Debit Card | Protocol Conversion |
| Digital Network Channel Term Eq. | Sales,Installation&Maintenance of CPE |
| Enhanced (Facsimile) Fax Service | Responsible Organization Services |
| Enhanced Services Planning | Reverse Search Services |
| Inmate Services | Software Sales |
| Inside Wire | Spread Spectrum Alarm Service |
| Joint Marketing of Enhanced Services | |
| Marketing of a Bank Credit Card | |
| Message Delivery Service (MDS) | |
| Payphone Equipment | |
| Personal Access Services (PAS) | |

If the revenues from an individual nonregulated activity represent in excess of 5% of the total operating revenues for the company, please provide the amounts, as requested above, for that individual activity:

SERVICE DATA - END OF YEAR (cont.)

Access Line--Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency, and/or time slot. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice or 64 Kilobits/second. Customer--A person who uses a telephone as a subscriber.

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES**Affiliated Assets and Liabilities Footnote. Page 16**

) Page 16 - Affiliated Assets and Liabilities

In June, 1997, Ameritech centralized the administration of benefits for employees who had retired from Wisconsin Bell and other subsidiaries as of December 31, 1996. In connection therewith, we hold approximately \$8.8 million in preferred stock issued by the Ameritech subsidiary responsible for administration of these benefits. This subsidiary began paying benefits on our behalf in July, 1997. We account for these benefit payments made on our behalf as a capital contribution in the shareowners equity section of the balance sheets, with a corresponding reduction in the postretirement benefit obligation. This contribution for the year ended December 31, 1997, was \$10.6 million.
[pasted from Word document 8/14/98 ele]

7) Page 16 - Affiliated Assets and Liabilities

The PSC program edit check indicates that the balance sheet shows a credit balance for account 4010. On page 16 account 4010 credit balances are shown as positive numbers except for Ameritech Credit Corporation and Other which both have debits balances. These debit balances are reported in brackets. The program edit check should be ignored.

[pasted from Word document 8/14/98 ele]

O) Page 22/23, copy 2, Telecommunications Plant In Service, Account 2001, line 34, column h:

The nonregulated activity is calculated per PSC directive based on a ratio of nonregulated Plant in Service to Total Company Plant in Service. The source is the 1997 Earnings Monitor Report, Docket 6720-T1-109, Worksheet A. The ratio is multiplied by total regulated & nonregulated plant in service from page 23 to derive nonregulated activity.

[pasted from Word document 8/14/98 ele]

8) Page 22/23 - Telecommunications Plant In Service, lines 7 & 10

The BOY numbers for accounts 2121 and 2124 have been adjusted in response to the February 17, 1998 analytical review letter from Elaine Engelke, Financial Specialist, of the PSC. In 1995 the retirements in the accumulated depreciation schedule and the retirements in the plant schedule did not agree and were obtained from different sources. Corrections for these differences have been reflected in the 1997 BOY balances. The 1995 annual report revision submitted to the PSC on March 11,1997 correcting these accounts should be disregarded.

[pasted from Word document 8/14/98 ele]

) Page 23, Telecommunications Plant In Service - Main Accounts column G, Transfers and Adjustments,

Page 25, Telecommunications Plant - Sub Accounts, column G, Transfers and Adjustments:

The amounts represent miscellaneous transfers and adjustments during 1997. This includes reclassifications of plant and corporate adjustment entries, which do not include an initial expenditure.

[pasted from Word document 8/14/98 ele]

Accumulated Depreciation Class A & B Footnote. Page 26

Two Schedule Notes Exist

The annual accrual in column E, account 3100, after line 29, allocation to non-regulated activity, is from the 1997 Earnings Monitor Report, Docket 6720-TI-109, Worksheet A, row 8, column B2.

The allocation to non-regulated Balance EOY in column L, account 3100, after line 29 is calculated per PSC directive based on a ratio of non-regulated accumulated depreciation to total accumulated depreciation from the 1997 Earnings Monitor Report, Docket 6720-TI-109, Worksheet A line 50. This ratio of .0143 was multiplied by total Accumulated Depreciation of \$1,600,899,272.

[pasted from Word document 8/14/98 ele]

The Actual Depreciation Rate in column D is used. If more than one subaccount feeds the main account, the actual depreciation rate is an average of the subaccounts' actual depreciation rates.

[pasted from Word document 8/14/98 ele]

P) Page 26/27, Accumulated Depreciation Class A & B - Main Accounts, column K, Other and

Pages 28/29, Accumulated Depreciation Class A & B - Sub Accounts, column K, Other:

The amounts in column (k) represent miscellaneous plant transfers and reserve reclassifications.

[pasted from Word document 8/14/98 ele]

6) Pages 26, 27, 28 and 29 - Accumulated Depreciation

Due to PSC software limitations, the EOY balance, column (h), pages 28 and 29, accumulated depreciation sub accounts did not always equal the EOY balance, column (h), pages 26 and 27, accumulated depreciation main accounts. In order to have accurate EOY balances in column (h), pages 26 & 27, accumulated depreciation main account, adjustments were made in transfer/adjustments, column (g) on pages 28 and 29 as follows:

[pasted from Word document 8/14/98 ele]

Net Deferred Operating Income Taxes (Acct. 1350, 1410, 1437, 4100, 4340, 4341 & 4361) Footnote. Page 30

) Page 30/31, Net Deferred Operating Income Taxes, for line 8:

Allocations to non-regulated activity amounts were derived per PSC directive via ratio analysis using Worksheet A of the 1997 Earnings Monitor Report, Docket 6720-TI-109, Worksheet A, Page 2, Line 54, Columns B2 and E.

[pasted from Word document 8/14/98 ele]

2) Page 30 & 31, Net Deferred Operating Income Taxes, Column b, line 8

The FOY balance for "less allocation to non-regulated activity" has been revised in answer to question number 4 of the February 17, 1998 analytical review letter from Elaine Engelke, Financial Sepcialist, from the PSC.

[pasted from Word document 8/14/98 ele]

Distribution of Taxes Footnote. Page 38

Schedule Note Exists

\$960,000 was cleared in 1997 prepaid taxes.

[pasted from Word document 8/14/98 ele]

GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES**Revenues - Class A & B (Class B Use Accounts Designated By *) Footnote. Page 40**

G) Page 40, Revenues - Class A & B, Explanations for revenue variances over 20% and greater than \$5,000:

Account 5010 - During 1997, the FCC ruled that regulated Payphone revenues should be classified as non-regulated.
Account 5060 - Increases in business and residential central office features.
Account 5083 - Strong growth in special access circuits.
Account 5084.3 - Strong growth in special access circuits.
Account 5111 - Decrease in Custom 800-Common Line Usage.
Account 5125 - Increase in Exchange LDC and Exchange Non-LDC.
Account 5230 - Decrease in contracted services publishing fees.
Account 5240 - Decrease in land & building, cable & wire facility rent.

Account 5250 - This is a clearing account. This amount represents dollars that have not cleared at 12/31/97.
Account 5261 - During 1997, the FCC ruled that regulated Payphone revenues should be classified as non-regulated.
Account 5263 - Increase in network support revenue.
Account 5264 - Increase in late payment fees and customer information services.
Account 5280 - During 1997, the FCC ruled that regulated Payphone revenues should be classified as non-regulated.
Account 5302 - Increases in uncollectibles for Payphone and Small Business

[pasted from Word document 8/14/98 ele]

Expense Matrix - Class A & B Footnote. Page 41

H) Pages 41/42, Expense Matrix - Class A & B, Explanations for total expense variances over 20% and greater than \$5000. We are unable to explain expense variances on a regulated or non-regulated basis.

Account 6220-Reduction in general repair costs.
Account 6310-Reduction in costs of goods sold for station apparatus equipment. Reduction in plant labor distribution charges, exempt material overhead, and plant benefit costs for network terminating and customer premise wiring.
Account 6530-Increase in testing costs associated with subscriber lines.
Account 6610-Increase in advertising production and placement and other non-employee commissions.
Account 6620-Increase in expenses related to work performed by other states on behalf of Wisconsin in the area of customer services.
Account 6710-Reversal of 1996 accrual for Wisconsin Advanced Telecommunications Foundation payment.
Account 6720-Decrease in accruals.
[pasted from Word document 8/14/98 ele]

4) Page 41 & 42 - Expense Matrix

The 1996 EOY balance of \$655,016 was incorrectly recorded in Account 6511. This balance has been moved in 1997 to the correct Account 6512.

The PSC program edit check indicates that this exchange and central office ID can not be a standalone because the central office serves more than one exchange. This exchange and central office is an exception in that there is no remote central office equipment in the other exchanges. Ignore edit check.[pasted & abbrev from Word, ele]
