### Identification and Ownership (Page iv)

We have compiled the accompanying Public Service Commission Report of the Bridgeport Sanitary District for the year ended December 31, 2000, in accordance with standards established by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of the utility. We have not audited or reviewed the accompanying report and, accordingly, do not express an opinion or any other form of assurance on it.

The Sanitary District has elected to omit other financial statements and disclosures required by generally accepted accounting principles. If these omissions were included, they might influence the user's conclusions about the utility's financial position, results of operations, and cash flows. Accordingly, this report is not designed for those who are not informed about such matters.

2000 Analytical Review DWCCA-705-PJL

Dear Ms. Wachter:

The Public Service Commission has completed their analytical review of your 2000 annual report. The primary purpose of our analytical review is to detect possible accounting related errors and to identify significant fluctuations from prior year's data, which are not sufficiently explained in the footnotes of your annual report. We have no questions only the following comments.

1. During our review, we noted that in Account 145, Receivables from Municipality on page F-18, you reported a loan to municipality of \$25,000 in both the 1999 and 2000 annual reports. Please note that in the future, Account 145 should only contain amounts that are subject to current settlement. Amounts that will be repaid, but over a longer period of time, should be reclassified to Account 123, Investment in Municipality.

2. In our letter of June 16, 1999 regarding our review of the utility's 1998 annual report we wrote the following: "Please explain the reason for the difference between the average number of customers reported for Total Metered Sales to General Customers in column (b) on page W-2 and the total number of services reported in column (g) of the Services schedule on page W-16." The utility's response of 6/17/99 indicated that "The reason the average # of customers is higher is due to a few customers being on stand by and not currently hooked up for services at this time." On 6/28/99 I left message on Julie Wachter's phone that they shouldn't report standby customers on page W-2 in the future. It appears that the standby customers are still being reported on page W-2. Please follow the above reporting policy in the future or otherwise explain the reason for the continued difference between the number of customers and services.

Thank you for your efforts in preparing your 2000 annual report. We are closing the review of your 2000 annual report. If you have any questions, please feel free to contact me at (608) 267-9198 or by e-mail at leege@psc.state.wi.us.

Sincerely,
