2001 Analytical Review DWCCA-4020-PJL

Dear Ms. Wnuk:

The Public Service Commission (Commission) staff has completed its analytical review of your utility's 2001 annual report. The primary purpose of the analytical review is to detect possible reporting or accounting related errors and also to identify significant fluctuations from prior years' data that are not sufficiently explained in the annual report. The analytical review did identify the following issue:

While there were no issues regarding the 2001 annual report which require a response at this time, there is an issue from the previous year still unresolved. In item number three of the response from John McLaughlin (dated August 7, 2001) to our review of the utility's 2000 report it was explained that services added were financed through contractor contributions. Please explain why there were no contributions reported in Account 271 for those services.

Responding to the questions posed from the analytical review does not preclude you from possibly receiving other inquiries from our office regarding your annual report in the future: for instance, during a rate case, construction authorization, or other Commission reviews.

We appreciate your cooperation in providing the above information. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is peter.leege@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege
