### FULL-TIME EMPLOYEES (FTE)

Use FTE numbers where FTE stands for full-time employees or full-time equivalency. FTE can be computed by using total hours worked/2080 hours for a fiscal year. Estimate to the nearest tenth. If an employee works part time for more than one industry then determine FTE based on estimate of hours worked per industry.

Example: An employee worked 35% of their time on electric jobs, 30% on water jobs, 20% on sewer jobs and 15% on municipal nonutility jobs. The FTE by industry would be .4 for electric, .3 for water and .2 for sewer.

### PROPERTY TAX EQUIVALENT (WATER)

1. No property tax equivalent shall be determined for sewer utilities or town sanitary district water utilities.
2. Tax rates are those issued in November (usually) of the year being reported and are available from the municipal treasurer. Report the tax rates in mills to six (6) decimal places.
3. The assessment ratio is available from the municipal treasurer. Report the ratio as a decimal to six (6) places.
4. The utility plant balance first of year should include the gross book values of plant in service (total of utility financed and contributed plant), property held for future use and construction work in progress.
5. An "other tax rate" is included in the "Net Local and School Tax Rate Calculation" to the extent that it is local. An example is a local library tax. Fully explain the rate in the Property Tax Equivalent schedule footnotes.
6. The Property Tax Equivalent to be reported for the year is determined pursuant to Wis. Stat § 66.0811(2). Report the higher of the current year calculation or the tax equivalent reported in the 1994 PSC annual report, unless, the municipality has authorized a lower amount, then that amount is reported as the property tax equivalent.
7. If the municipality has authorized a lower amount, the authorization description and date of the authorization must be reported in the Property Tax Equivalent schedule footnotes.

### Other Operating Revenues (Water) (Page W-04)

**If Public Fire Protection Service (463) Amount Billed is zero, please explain.**

The rate file did not contain public fire protection service charges. The Utility will be requesting a rate increase during 2006 and this will be addressed at that time.

### Water Operation & Maintenance Expenses (Page W-05)

**For values that represent an increase or a decrease when compared to the previous year of greater than 30%, but not less \$2,000, please explain.**

Repairs of Water Plant (650) - The Utility had all cross connections inspected during the year to determine whether they required replacement. This was at a cost of \$24,570.

Supplies and Expenses (640) - The Utility tracked the repairs separately from the supplies this year. This amount had been included in account 650 in the past.

Employees Pensions and Benefits (686) - The employees became eligible for the Wisconsin Retirement System due to being acquired by the Town. In addition, vacation pay was charged to this account.

Transportation Expenses (660) - The increase is due to the increase in gas prices plus the addition of a full-time plant supervisor.

Administrative and General Salaries (680) - The increase is due to the commissioners receiving payment for their services as part of Town policy and an annual wage increase for the bookkeeper.

Offices Supplies and Expense (681) - The increase is due to purchasing new letterhead and envelopes for the public utility; cell phones being added for the staff so they may be on-call easier and the setup of an office at the plant for the supervisor.

Insurance Expense (684) - The insurance rates decreased when the Utility became part of the Town because the Town already had liability and workers compensation insurance.

---

### Property Tax Equivalent (Water) (Page W-07)

**If Other Tax Rate - Local and/or Other Tax Rate - Non-Local are greater than zero, please explain.**

The other tax rate represents an amount levied for the Tri-Lake Sanitary District.

### Water Utility Plant in Service --Plant Financed by Contributions-- (Page W-10)

#### General footnotes

The beginning of the year balance was determined by use of the detailed depreciation schedule. The contributions in aid of construction were allocated to services first and then the remaining amount was allocated to mains.
